

Uncle Abe

AS HE SEES THE HUMAN SIDE O' LIFE

IN THE POSSUM'S GITTEN FAT

By Uncle Abe.

"When the frost is on the punkin,"
An' the possum's gittin' fat
On the grapes out in the medder—
Then we no 'bout whir we're at.
It's gittin' long up in October—
Chesnit shades an' all o' that,
"When the frost is on the punkin,"
An' the possum's gittin' fat.

No other time is like October—
Oh, how I like it's bracin' air!
Makes me feel jist like a millyun—
Tu then I never take a dare.
An' on, such goodies in ma's kitchen!
"Round about whir the cupboard's at,
"When the frost is on the punkin,"

An' the possums gittin' fat.
Then's the time the squirrels git sassy,
Bark so brave upon the lim';
Gess he, too, likes this fine wether.
An' what the harves' means to him,
With skool an' play—an' a little study,
Chesnit hunt, an' things like that—
Well, that is why I like October.
When's the possum's gitten fat.

Well, fokes, requests have been a-
pilin' up on Uncle Abe endurin' the
past 2 weeks. France Millner wants
me to "rime off" hix one legged hen—
will try to reach you next week,
France.

Then Bill Blaylock wants Uncle
Abe to "fix" the man (a new-comer)
who lives jist back o' him an' who
haz, accordin' to Bill, gone into the
pig an' cattle business too kloze fer
Bill's akute sence o' smell, an' so
foarth.

Also Charley McCracken an' Chas.
McCrary have bin axin Uncle Abe to
say sump'n about that man on
Fines Creek—they called him Dal,
who wore so meny clothes one winter.

Camels never get on your Nerves

I CAN SMOKE ALL I WANT BECAUSE I SMOKE CAMELS. THEY DON'T UPSET MY NERVES.

I SMOKE A GREAT DEAL TOO, I PREFER CAMELS BECAUSE THEY DON'T MAKE MY NERVES JUMPY, AND I LIKE THEIR FLAVOR BETTER.

YOU'LL LIKE THEIR MILDNESS TOO!

How to Keep Colds UNDER better CONTROL

Catching Cold? .. Vicks Va-tro-nol helps Prevent many Colds

At the first warning nasal irritation, snifle or sneeze, use Vicks Va-tro-nol—just a few drops up each nostril. Va-tro-nol is especially designed for the nose and upper throat—where most colds start. It stimulates Nature's own functions—in the nose—to help prevent colds, and to throw off head colds in their early stages. Used in time, Va-tro-nol helps avoid many colds.

Caught a Cold? .. Vicks VapoRub helps End a Cold Sooner

If a cold has developed, rub Vicks VapoRub on throat and chest at bedtime. VapoRub acts direct—two ways at once: (1) By stimulation through the skin like a poultice or plaster; (2) By inhalation of its medicated vapors direct to inflamed air-passages. Through the night, this combined vapor-poultice action loosens phlegm, soothes irritation, helps break congestion.

Follow Vicks Plan for Better Control of Colds

A helpful guide to fewer colds and shorter colds. Developed by Vicks Chemists and Medical Staff; tested in extensive clinics by practicing physicians—further proved in everyday home use by millions. The Plan is fully explained in each Vicks package.

153/36/26/ Over 43 Million Vicks Aids Used Yearly for Better Control of Colds

Strange—but—True

Alligators, when fighting each other, seize a leg of their adversary in their jaws and twist it off by rolling rapidly. When two alligators engage in combat, one is always killed, sometimes both. The survivor is often badly crippled.

During 12 months of 1933 and 1934 some 12,000 citizens of the United States were murdered—a murder rate of 7.3 per 100,000, or one every 45 minutes.

Sixty-five feet long and having 18 wheels and a buffer and bathroom, the world's largest bus, propelled by Diesel engines, runs from Damascus, Syria, to Bagdad, Iraq.

So perfectly balanced are each of the four propellers of the gunard White Star superliner, Queen Mary, now being "fitted out" in Scotland, that even the touch of a finger on the giant blade is enough to set them in motion. Each propeller weighs 33 tons.

Cellophane is now used as surgical dressing. It permits the wound to be inspected without removing the bandages.

The latest total put out by the Treasury Department gives the cost of the World War to the United States to date to be forty-two billion dollars.

It is estimated that there are 500,000 epileptics in the United States or one out of every 240 persons.

It is estimated that each rat destroys two dollars' worth of property each year.

It is estimated that 200,000 children now in school will be numbered among the criminal ranks the next few years.

An' shurts about the game—
I'm a-goin' to keep the cold wind out,
As shore as Dall's my name.

He never changed, the winter long.
An' slept in all them clothes;
How hot he got, how bad he stunk—
Well, the pole cat only knows.

An' did he shed hix clothes nex spring?
Yes, the spot may still be found;
All that wuz sound of what he wore
He left upon the ground.

They found 12 straps of overalls.
An' eight neck bands, they sed,
With buckles an' buttons still intact.
That's all he had to shed!

Mr. Editor I muss give one other observashun of the Fair that I omitted las' week:

Thar wuz one o' man from Rush Fork a-watchin' the Dizzy Dangle. Well, when the swing startid up that o' man comment to open hix mouth sorter slow, an' as the swing got faster an' faster, the o' feller opened hix mouth wider an' wider until it lookt like he had reacht the limit. Then as the swing startid slowin' down hix mouth comment to kloze agin.

"Well, mister, you'll not ketch me on that thar thing" ... an' he walkt away.

"Son, this is Uncle Abe, sed an Ivy Hill man to hix 11-year old boy at the Fair last week. "He likes yore letters so well, he's a wantin' to see ye," the man ecksploined.
Behold him—in the flash!

Mama, this is Uncle Abe,—thi from a Hazelwood woman, as I past by her an' her muther. "She wonderd if you lookt like yore pick-chur."

No explanashun necessary.

"Hunny, this is Uncle Abe, look at him," sed a woman, puttin' me out to her baby as she met me at the door. Give Jacko a peanut.

"Come up cloze, Uncle Abe, my wife's bin a-wantin' to see ye," sed a Waynesville man last week.
The ladies onct over.

Well, Mr. Editor, what am I to do? I never onct dreamd of sitch poppy-larity! At this rate neepul will be namin' their babies after Uncle Abe purty soon, then—
Gloary be!

Outcome of Aniline Purple

When a young English chemist invented aniline purple he began an era of danger to experimenters only equalled by the development of gun powder.

"GEE, MOMIE!—SEW THAT ON TIGHT!" 'cause if it ever lets loose I'll look like one of those guys from a nudist camp 'stead of a cannibal!" wails Jimmie, who plays the part of a wild and wooly man-eater. "Don't worry!" laughs Jimmie's Ma, "I'm using the best thread that ever kept your panties up—Clark's O. N. T. best 6-cord. You're in those rompers to stay—no matter how wild you act up!"

Buy Your O. N. T. Thread From
Massie's Department Store
"A Good Place To Trade"

After Shopping DO YOU feel like this?

When you get home, are you worn to a ragged edge, ready for slippers and an easy chair? If so, we invite you to say, once and for all,

Goodbye tired feet!

Perfect-Eze shoes. Note the soft, yielding construction of the invisible Perfect-Eze. It absorbs the jar and jolt from pavement and floor.

Back lid and suede toe, prior trimming, boulevard heel.

Gabardine cloth tie, patent trimming, boulevard heel. In black, blue or brown.

If you'll take a friendly suggestion, you won't be in a grand rush to slip off your shoes and rest your weary feet the next time you come home from a shopping tour.

You'll be wearing a pair of Perfect-Eze Shoes, the most marvelously comfortable shoes you ever slipped on your feet.

They're beautifully styled, of course. But the real thing you're going to like about them is the entirely new principle upon which they are built.

Instead of an ordinary sole, every Perfect-Eze has an invisible cellular sole which actually cushions every step.

This sole absorbs the jolts and jars from the thousands of steps you take in an ordinary shopping day.

Slip on a pair and see for yourself. You'll be amazed—and highly pleased.
