Local Women To Publish Cook Book

Mrs. Rufus Siler, chairman of the committee to revise the cook book published a few years ago by the Community Club, is making an appeal for new tested receipts. She also is asking that anyone wishing to exchange one which they submitted for publication in the last edition of the book, may do so, with a new one.

The demand for the books has continued so long after the supply has been exhausted that the committee feel that a second edition would be justifiable, and the plans are to go forward with the work and have the book off the press in time to be on sale as Christmas gifts.

Bethel Elementary School Standardized

By Ernest Messer.

Bethel Elementary school has added one more rung to the long ladder she is destined to climb. The officials of Bethel Elementary school, assisted by the P. T. A., have been working diligently for a number of years to meet the requirements for standardization. At the 1934-35 session of the General Assembly, the assembly recognized that Bethel has met those requirements, and accordingly, gave her a II-B rating.

In a letter to Principal C. C. Hanson, Mr. Henry Highsmith, director of the division of instructional service, said: "Let me congratulate you heartily upon your achievement in standardizing your elementary school. Such rating of your school means a great deal, not only from the standpoint of recognition, but from the standpoint of the work done in the school. An accredited or standard school must have certain equipment and other elements which go into the make-up of a good elementary school. It is this sort of elementary school which we desire for every child in North Carolina, and we congratulate you upon your success in this enterprise."

...but, after all is said and done, it's the cigarette itself that counts
... the question is, does it suit you?

Now, when it comes to a cigarette that will suit you ... you want to think whether it's mild, you want to think about the taste

That Chesterfields are milder and taste better is no accident ...

The farmer who grows the tobacco, the warehouseman who sells it at auction to the highest bidder, every man who knows about leaf tobacco will tell you that it takes mild, ripe tobaccos to make a good cigarette.

In making Chesterfields we use mild ripe home-grown and Turkish tobaccos.

Outstanding .. for mildness .. for better taste
