MRS. JANE S. McKIMMON WILL ADDRESS MEETING

Interest among the women of the county, both in the towns and the rural communities, centers around the visit of next Wednesday, October 30th, of Mrs. Jane S. McKimmon, State director of extension service, and head of the home demonstration work in North Carolina for the past 21 years.

The meeting is to be held at the court house beginning at 10:30 o'clock. The plan is to have a picnic lunch, brought by those attending, and the crowd at the lunch hour will go to the Methodist church, where lunch will be spread in the dining room.

Mrs. McKimmon, who is being brought to Haywood by Miss Mary Margaret Smith, county home demonstration, has gained national recognition in her work and is considered an eminent authority in the South.

MRS. R. L. LEE ENTERTAINS BRIDE AND BRIDAL PARTY

On Friday Mrs. R. Lowry Lee entertained in compliment to Miss Martha Neal, Mr. Jimmy Trotter and the members of the bridal party, with a luncheon at the Lee summer home at Balsam. Stone jars of brilliant autumn leaves in shades of Chinese red were placed about the living rooms and the porches.

A buffet luncheon was served from the porch, as the day was mild, with the gorgeous coloring of the mountains lending charm to the setting. The girls in the party were presented small Indian baskets filled with chestnuts, as favors, and the men were given miniature wooden stills and jugs.

BIRTHDAY PARTY GIVEN FOR TWINS THIS WEEK

Mr. and Mrs. Lawrence Kerley assembled a group of the young friends of their twins, Annie Caris and Harry Farris, at the home of Mr. and Mrs. Silas Nichols during the week. The occasion was honoring the birthday of the children. They were assisted in entertaining by Mrs. Ed Ray.

In the dining room a color combination of yellow and black with favors and other accessories in Halloween mode were pleasing to the young guests. Miss Nannie B. Miller assisted in serving.

Those present were: June Garrett, Harriet Atkinson, Marie Miller, Betty Ellen Nichols, Aileen Williams, Nonny Ray, Buck Atkinson, Billy Kerley, Sonny Boyd, Joe Kerley, L. B. Garrett, Mike Atkinson, and Carol Grahl.

DR. AND MRS. W. H. LINER GIVE DINNER PARTY

On Sunday evening Dr. and Mrs. W. H. Liner entertained with a dinner party as a surprise to Mrs. Joe Liner, on the occasion of her birthday anniversary. The Halloween motif was observed in all the appointments. The table was centered with a large pumpkin with lighted candles, and at each place were cards of witches, and amusing favors significant of Halloween.

As the guests entered the dining room the room was darkened and they were led in and seated one at a time by a small ghost, Miss Theresa Alley. At the conclusion of the serving of dinner, the honor guest was presented with a basket filled with lovely gifts. The guest list included twelve friends of the hosts, and honoree.

A Sense Of Humor

From Waynesville Hi-Life Perhaps it may seem strange to you that a minister should select such a topic as "A Sense of Humor" for the subject of an editorial. You might more naturally have expected something on Bible reading or morals, or possibly a treatise on the proper use of leisure time. But I am convinced that there are few assets in life more valuable than a wholesome and healthy sense of humor.

I remember very distinctly the first time I saw a gyroscope. It was years ago at a Repath Chautauqua performance. All the kids in town, and most of the grown folks, too, were on hand to see the magic of the magician. This particular exponent of the art of magic had a device on the stage which he called a gyroscope. This was an instrument consisting of a flywheel capable of rotating at great speed about an axis, which in turn was arranged to move freely in one or more directions.

Several small boys were called upon the stage and invited to investigate the gyroscope. At most it only weighed about twenty pounds and as long as the flywheel was motionless the whole thing could be tilted in any direction. But when the flywheel had been set in rapid motion the combined efforts of the boys could not tilt it in any direction other than its chosen course.

Later I learned that aside from affording amusement the gyroscope has very practical uses. It acts as a stabilizer for cars, ships, airplanes, and even torpedoes, tending to give smoothness of operation upon an even keel.

Now a sense of humor is like that. It has very practical uses other than affording amusement. It stabilizes life. When we are discouraged it can often lift us from the slough of despond. I've never heard of a man with a strong sense of humor committing suicide. Likewise when we have won a few victories in life an honest sense of humor may often prevent our heads from outgrowing our hats. It automatically reacts to excessive tilting of the human mind.

If you have no sense of humor, develop one. If you already possess one, cultivate it. Teachers and pupils alike will find that it has very practical uses. But see that it is without malice, clean and honest. If it's malicious it will wound, if it's unclean it will be repulsive, and if it's unfair it will be resented.

And always remember that he laughs best who laughs first—at himself!

Paul Hardin, Jr.

Stitched Eyes of Swine

In escorting swine from central points in Ohio to distant markets in the famous hog drives of yore the drivers sewed the eyes of the porkers shut to make them stone-blind. As each strange sight would alarm them, sending them scampering in all directions, the drivers would run stitches through the eyelids of the pigs and tie the ends into knots. Then at the end of the journey the stitches would be cut and the hogs again given their vision.

October Is Time To Plant Bulbs

Flower bulbs, which are to blossom in the spring, such as tulips, hyacinths, narcissi, and grape hyacinths, may be planted in October, or as late as mid-November in eastern North Carolina.

The ideal soil does not pack, is crumbly and moist, yet well drained, said Glenn O. Randall, professor of floriculture at N. C. State College.

When preparing to plant bulbs, plow the soil to a depth of 10 inches, then pulverize it thoroughly, he recommends.

Stable manure, thoroughly decayed, is a good fertilizer. If decayed manure is unavailable, bone meal may be used, or a complete fertilizer containing 4 to 5 per cent nitrogen, 8 to 10 per cent phosphorus, and 4 to 6 per cent potash.

A good way to plant bulbs, when they are to be set in clumps or in beds, is to remove the upper four inches of soil, set the bulbs the desired distance apart, and then cover them with the soil that was removed.

When planting a large area, the soil may first be removed from a space about 5 feet in size, the bulbs placed in position, then covered from soil removed from an adjoining area.

This opens up the adjoining area, where bulbs may be set and covered with soil from an area just beyond. This process may be followed until the entire lot is planted.

In all cases, Randall stressed, apply the fertilizer and carefully prepare the soil before setting out the bulbs.
