

President and Mrs. Roosevelt's Christmas Card

CHRISTMAS
1935
A MERRY CHRISTMAS
from
THE PRESIDENT
and MRS. ROOSEVELT

This is a picture of the Christmas card sent out by the President and Mrs. Roosevelt. In case you didn't get yours you might want to keep this one.

COUNTY AGENTS' COLUMN

W. D. SMITH

The Haywood County Burley Control Association met Saturday afternoon, December 28. Although climatic conditions were very unfavorable for a meeting, yet more than two thirds of the members were present. These committees have been very cooperative during the past two years and have spent ferely their time in discharging their duties. As a result of their hard work and conscientious effort more than 99 per cent of the producers of Haywood County signed contracts.

These committees spent more than two hours in discussing the result of the program and plan for the future. Plans were made to adjust poundage as equally and fair as possible. Plans were also made to hold educational meetings over the county at one or more places in every township and at the same time give all eligible signers an opportunity to sign the new contract. If weather conditions permit these meetings will be held during January.

It is expected that the potato program will be worked out in the near future, also the county agent is expecting to get the necessary blanks within the next few days to go ahead with the potato program.

This is just a New Years greeting to all the people of Haywood County. This week finishes two years of effort by the present County Agent. These two years have been filled with hard work and conscientious effort on the part of the county agent for better rural conditions. Some of these efforts have resulted in success, some are not so good. If we can be of more service to you in the year ahead than we have in the past let us hear from you. We know by co-operation and all efforts directed in the right way that we can get results. If we are right minded to work together, we do not know how far we can go. Now if never before is when Haywood County folks should all pull in the same direction. We are counting on you to help us make a better 1936.

W. D. SMITH, County Agent

MR. DAIRYMAN, WHY WORRY?

When you buy a young dairy bull, one of two things is going to happen. Either you will handle and manage him well, or

You will not. If you handle and manage him well, you need not worry—

But if you don't, well—one of two things is going to happen—

Either you will dispose of the bull when he is about three years old, or he might dispose of you.

If he disposes of you, that is serious, and you might need to worry—

If you dispose of him, well, one of two things is going to happen—

Either you will find your future herd worse, or

It will be better than the old herd. If it is worse and the bull is gone, you will not worry.

If it is better, you will worry for you will forever after tell about what a fine bull he was.

MORAL—Build a pen to keep your old bull without worry.

POTATO ALLOTMENTS FOR 1936

Applications having Farm History. For farms on which potatoes were grown in any of the years 1932, 1933, 1934, the largest possible preliminary sales bases shall be calculated by applying Options (1), (2), (3), (4), (5), (6), (7), (8), below the corrected and adjusted farm history, and in cases where personal history is properly included in the Application by also applying such options to such personal history. The options to be so applied are as follows:

Get Bills For Your Options.

(1) The annual average of sales in the years 1933, 1934, and 1935.

(2) The annual average of sales in the years 1932, 1933, 1934.

(3) 90 per cent of the annual average sales in the years 1934 and 1935

(4) 90 per cent of the sales in the year 1935.

(5) 80 per cent of the sales in the year 1934.

(6) 70 per cent of the sales in the year 1933.

(7) 60 per cent of the sales in the year 1932.

"Hordes of gullies now remind us We should build our land to stay And, departing, leave behind us Fields that have not washed away. When our boys assume the mortgage On the land that had our toil, They'll no. have to ask the question: 'Here's the farm, but where's the soil?'"

—Minnesota News Letter.

May we follow the suggestion in this poem by strating the new year in making a bank account of our soil, by putting something back into the soil and conserving what there is already there?

If we expect to enjoy the modern conveniences and good living, we must think in the future, and plan for it.

—TIMELY—

Farm Questions and Answers

Question: How much fertilizer should I use on my tobacco plant bed?

Answer: An application of 200 pounds of a 4-8-3 mixture should be applied to each 100 square yards of bed. If a lower grade of fertilizer is used it can be supplemented with from 50 to 100 pounds of cotton seed meal provided the meal is thoroughly mixed with the soil. All fertilizer should be broadcast and mixed thoroughly with the top three or four inches of soil. Do not use tobacco trash on the beds nor any manure containing tobacco leaves, stalks, or roots.

Question: How can I keep my chickens from picking out their feathers?

Answer: This trouble is caused by a small mite that gets into the skin near the base of the feathers and causes irritation. To get rid of this mite the poultry house should be thoroughly cleaned and sprayed with a solution of three parts of crude petroleum or carbolium and one and one-half parts of kerosene. Dip the birds in a tub containing two ounces of flowers of sulphur and six ounces of flaked soap to five gallons of tepid water. Be sure that the solution gets to the skin.

NOTICE OF BUILDING AND LOAN MEETING

The annual meeting of the shareholders of the Haywood Home Building & Loan Association will be held at the offices of the association in law offices of Morgan, Stamey & Ward on Tuesday, January 21st, 1936, at 7:30 o'clock, p. m. for the purpose of electing directors and any other business which the shareholders desire to transact. All shareholders are urged to attend.

This Dec. 31, 1935. S. H. BUSHNELL, Secretary. No. 430—Jan 2-9.

The Greenville Market Has Sold 6,097,000 POUNDS

A Gain of 134 Per Cent Over Same Time Last Year

Bernard's Gain Is Even Greater—There Is A Reason

We look for prices to open equally as strong, if not stronger as at the close FOR CHRISTMAS

SALES RESUME JANUARY 2nd AT BERNARD'S NO. 2

The most of the little crops are sold and more than half of the whole is sold—the rush is over—you get quick sales at Greenville—double daily sales prevent your tobacco from remaining long on the floor to damage, as at other points. Greenville Could Sell In Six Weeks or Less Time All The Crop Yet Behind

We give below a list of a few of the many good sales recently made—these averages include the tips and red grades in each and every crop offered

Sell your tobacco with those who are judges and by instinct KNOW tobacco at a glance—be as energetic, as considerate and cautious in the marketing of your tobacco as you have in growing and caring for it and do not let a big portion of the money made by looking after your crop properly, slip through your fingers by not selling at Headquarters—Remember that Greenville leads the Tobacco Belt, and that, Bernard's lead Greenville.
