

# COUNTY AGENTS' COLUMN

W. D. SMITH

The dry weather is very discouraging to all of us. We can say what we want to about it, and talk what we want, but there is not anything we can do about it, however, I did notice that those who work regardless of dry weather get results and those who quit and waited for more favorable weather and are always complaining.

We notice that some of our good farmers had to do five or six times as much work and effort to get their silage corn due to the continued dry weather as they normally have to do. But these farmers kept at work and the corn has come up and if weather conditions are favorable it will make a good yield. Some of our people are going to be short of hay as well as other feeds unless we plant soybeans now.

Some of us need to change our practice and grow our winter hay crop and not depend on summer hay crops. We have a good many cards in our office now asking us to help them plan their winter hay crops and crop rotation. Those who want help in working out plans for winter hay crops and crop rotation should let county agent's office know at an early date.

We are having many calls for bulls at this time. Those who have bulls of any age for sale should let the county agent know about it at once. Some of the stock raisers think it to be a good idea to hold a bull sale at Clyde at an early date. Those who have bulls that they can consign to this sale to be held the last of July or the first of August, should let us know about it at once. Please let us

know your needs and your wishes and we will help you work it out. Some of our sheep growers want to sell and exchange rams. It has been suggested that this sale be held the last of July or the first of August. We want to know what you think and what you desire to be done about bringing better live stock in Haywood county. How many of you have registered bulls and registered rams? We are continually receiving inquiries from Georgia and elsewhere for registered animals.

### NOTICE OF SERVICE OF SUMMONS BY PUBLICATION

NORTH CAROLINA,  
HAYWOOD COUNTY,  
IN THE SUPERIOR COURT,  
LIGE B. SMATHERS

V.  
RUTH EVELYN SMATHERS.

The defendant, Ruth Evelyn Smathers, will take notice that an action has been commenced against her in the Superior Court of Haywood County for the purpose of securing an absolute divorce on the grounds of two years separation and the said defendant will further take notice that she is required to be and appear at the office of the Clerk of the Superior Court of Haywood County, in the court house in Waynesville, on 31, August, 1936, and answer or demur to the complaint filed in this cause, or the plaintiff will apply to the Court for the relief demanded in said complaint.

This the 29th day of June, 1936.  
W. G. BYERS,  
Clerk of the Superior Court.  
No. 488—July 2-9-16-23.

## Two Key Figures at Convention

Senator Barkley

Senator Wagner

Two Democratic senators who were key figures at the party's national convention in Philadelphia last week were Senator Alben Barkley of Kentucky, left, keynoter, and Senator Robert Wagner of New York, right, who had a major share in drawing up the platform.

### NOTICE OF TRUSTEE'S SALE

On Monday the 6th day of July, 1936, at eleven o'clock a. m. at the court house door in town of Waynesville, Haywood County, N. C., I will sell to the highest bidder for cash the following described lands and premises lying and being in Waynesville Township, Haywood County, viz:

BEGINNING at a stake at the Southeast margin of State Highway No. 10, 214 feet in a Northerly direction from the North margin of the road leading from the F. C. Welch former residence and runs with the line of lots Nos. 10 and 11, S. 48° E. 152 ft. to a stake; thence N. 38° 20' E. 50 feet to a stake; thence with the line between lots Nos. 9 and 10 N. 48° W. 152 feet to the margin of said Highway; thence with said Highway S. 40° W. 50 feet to the BEGINNING, being lot No. 10 of the Prevost Park Addition to the town of Hazelwood as per survey and map of J. W. Seaver made March, 1926 and being the same property conveyed to H. B. Atkins by J. H. Kuykendall et al. by deed dated and recorded in Book 71, page 363, Haywood County Registry.

Sale made pursuant to the power conferred upon me by that certain deed of trust executed by H. B. Atkins and wife, Nora S. Atkins, dated

### Many a Friend Recommends BLACK-DRAUGHT

People who have taken Black-Draught naturally are enthusiastic about it because of the refreshing relief it has brought them. No wonder they urge others to try it! . . . Mrs. Joe G. Roberts, of Portersville, Ala., writes: "A friend recommended Black-Draught to me a long time ago, and it has proved its worth to me. Black-Draught is good for constipation. I find that taking Black-Draught prevents the bilious headaches which I used to have." . . . A purely vegetable medicine for relief of CONSTIPATION, BILIOUSNESS

May 1st, 1933, and recorded in Book of Deeds of Trust No. 32 at Page et seq. in the office of the Register of Deeds of Haywood County. This the 4th day of June, 1936. A. T. WARD, Trustee. No. 476—June 11-18-25 July 2

## Figures Reveal That Burley Crop Showing Increase In County

Over Half Million Pounds Last Year Sold For Over \$116,000, From Haywood Farmers

By W. D. Smith.

We have asked a number of times about the burley situation in this county.

These questions have touched upon many phases of the burley problem. That this county has made progress in burley production for the last three years can not be denied by those studying the situation. We do not have very many detailed facts of burley production prior to 1933. From the best information we have as revealed by census figures in 1931 we grew 859 acres of burley, producing 585,455 pounds. In 1932 we had 828 acres in burley, producing 714,223 pounds. The figures for '33, '34 and '35 are as accurate as it is possible to get as we have the records here in the office. These are the three years in which records of sales have been recorded through the county agent's office.

The last two years we have been working to a definite farm program and our people have co-operated to a remarkable degree. In 1933 Haywood county farmers produced the largest crop of burley ever grown, 1442 acres, producing 1,070,644 pounds, with net sales of \$97,028.43. Average production per acre was 736 pounds, and the average price per pound was .093. Average return per acre \$66.59.

In 1934 the burley crop was 510 acres, producing 545,836 pounds; net sales \$97,391.51. The average poundage per acre was 1,070. Average return per acre \$190.98. Average price per pound .18. In 1934 there were 25,766 pounds of burley grown in the county by those who have not joined in the program. The net returns to these farmers was \$3,040.92. Hence the net returns to Haywood county farmers for the burley of 1934 was \$100,432.43.

The following detailed statement gives the facts for the 1935 burley crop:

Township	Pounds sold	acres	Net sale
Beaverdam	15,781	12.14	\$3,105.75
Clyde	28,208	22.3	4,736.85
Crabtree	83,378	68.72	17,676.31
Fines Creek	109,767	108.55	24,372.93
Iron Duff	73,685	61.9	16,511.82
Ivy Hill	19,630	17.8	3,770.86
Jonathan	97,836	95.9	24,125.89
Pigeon	31,033	24.4	6,552.72
Waynesville	32,814	27.85	6,301.33
White Oak	47,229	40.5	8,975.25

Total 539,361 480.06 \$116,129.71  
County average pounds per acre 1123.  
County average net price per acre \$241.93.

After studying these figures it becomes evident that our burley producers are doing a better job of farming than they did a few years ago. The above figures do not include the special base contracts of 1935 or those who did not take a part in the program prior to 1935.

Those who joined in the program in 1935 for the first time produced as follows: 20 acres producing 22,163 pounds and bringing the net returns of \$4,042.91. To sum up the whole picture for 1935 500 acres produced 561,524, bringing in the net return to our Haywood county farmers \$120,172.62. The above figures do not include the adjustment payments. Those who are interested in getting the total returns for the Haywood burley crop can retain these figures and add to them the adjusted payment which will appear in the paper at an early date.

### Left No Footprints

When going on an expedition they walked "Indian file"—that is, single file—each stepping in the footprints of the one before. The last man was supposed to obliterate the footprints. At any rate, the number of invaders would be concealed.
