	GOVERNOR HOEY AND THE LIQUOR
THE MOUNTAINEER	QUESTION-

When Wovernor Hoey declared in his maugural address. You will never build a great state or a great county upon profits derived from the vale of liquor," he expressed the beof of many North Carolinians.

What to do about liquor has long been a tito ere a question Saloons were a menace and were abandoned in the state before national production. The dispensary system tried in ar. ... calities was not satisfactory and stateante pronibition followed. And now prohibithe does not prohibit. North Carolinians are again faced with a new solution of liquor con-- 14

The commission appointed by Ex-Governor Enringhaus to study the problem is divided upon the matter of referendum, the majority being against a referendum: but Governor Hoey, in r + tampaign speeches and since, has taken a stand for the right of the people to express their will and there is likely to be a stiff fight. when the matter of mes up in the legislature.

The governor's stand on the matter of a r for ndum und also his declaration concerning promis from the sale of liquor encourage nie vielo recliznize the liquor evil as a social nensue tout needs to be need in check for the greater provident test, to if society .- Studie-Leid Hers. 1

### FILLING A COUNTRY WOODBON

On an usi farminuse a big woodbys wathat the side of the buge firsplace chimney in which to keep wood either for a freelate or the a debuilting kitchen stove. Ten base te of Dare required to fill it.

During the past summer two different menhave had the job of keeping the kitchen supplied with word. The first man he ught in word thy when he was assed to do so by his wife. the clark. Usually she had to call him from some other task. He would bring in one armrul toss is donn and says "There, I guess that will hold you intil I get around to bringing in N. 174

The silenet Worsers Would then have to react fur down into the box to get what they terd.d.

A more sensible system was used by the second man. First of all he had the woodbox thoroughly cleaned. The bark that had accumulated at the bottom was taken out and burned. Then he brought in basketload after basketload until the box was filled. Since then he has merely kept it filled, bringing in no merethan one or two loads at a time.

Should the second man be busy at work, or absent for several days, the kitchen workers do not have to worry about their supply of stove wood. They always have more than they need. as the clock ticked off minutes

HOOTS TOWAL FINDING A

PEARL IN ONE OF OUR

TEN-CENT STEWS !

This county has been fortunate during the past four years in having a chairman who devoted a large part of his time to the affairs of the county, althought his salary did not warrant sim spending the time that he did on the ob. We speak of W. A. Hyatt who spent four years as chainman.

Succeeding Mr. Hyatt was J. A. Lowe, who is well qualified to serve in that signality, and Mr. Lowe is already spending many murs each day looking after county matter- that he knows needs attention sooner than the board will meet. And again, may we repeat, that neither Mr. Lowe or Mr. Hyatt ran the county but devoted a lot of their time in getting together facts to present to the board on the first and third Mordays of each month.

Representative Cabê has the right lifes, we believe, in putting the chairman on a full time had After all Haywood County is a twentytwo and a half million corporation, and a full time must is not too much to have. In fact, such services are needed.

in the proposed bill, unless recently revised, Representative Cabe has set out a salary of \$1,000 for the chairman, and five dollars a day for the other two mombers. At pre-ent the chairmon get, \$600 a year, and the other members \$509 a year. Haywood County is now paying \$3,600 a year for the salaries of the commissioners. Under Mr. Cabe's plan, this would be cut to less than half the present amount.

To us, the proposed salary for the chairman seems to be just a little out of line, when compared with the salaries of other officials in the court house. Even if the full-time chairman was paid the same salary of the tax collector-\$1,800 a year, the county would still save approximately \$1,000 a year commissioner's salaries over what is now being paid.

But let that be as it may, we trust that nothing will prevent Mr. Cabe from getting his proposed commissioner's bill through the legislature.

It has been two weeks since a marriage license was issued in Haywood County, Evidently these showers have kept Dan Cupid at home.

There's a reserve supply on hand.

The two men represent the people of the world. There are those who are improvident, who live from hand-to-mouth, who never think ahead, who cannot even think in terms of building up reserves, who make no savings, whose work is always crowding them, who are hard workers because they are bad planners.

Then there are the people with forethought. They think ahead. They plan to make their work easier. They work hard to build up reserves so that they are prepared for emergencles. They are like the wise farmers who work nard during the growing season to privide food with which to stock the cellars.

We are always a bit suspicious of people whil talk about being overworked. Overwork is leavely the result of inefficiency and ineffidiency is the result of sloppy thinking. The first glat who never kept the woodbox filled. was siways rushing hither and yon. He was the busiest person. Anyone seeing him moving about would be tempted to exclaim. "There's a real worker. Watch him hustle around." The fact is he was no good at all and had to be dirconception his utter incompetence.

Great activity does not necessarily result. in great accomplishment.

Now that we are entering the twelve brand new months of 1937, let us all clean out the woodbox of our business and fill it to the top with what we need. The time to do the hard work is right now. Let us get our equipment in shape, our supplies where they can be handled efficiently, and then go to more important tasks with minds that are free to be concentrated on what is most profitable.

Let us start the year, no matter what our jobs, with a full woodbox. - Linotype News Balletin.

After standing for 1,132 beatings from her husband in 22 years, Mrs. Delia Toomey, of New York City, recently filed suit for divorce and was granted it, with \$20 a week alimony. From such practice she should be able to make more than that in the prize fight ring.

Perhaps this has been mentioned before, but the man had paid his bill and was given quite a bit of small change in return. He carefully sounted the change twice, and had an expression on his face that some hing was wrong. The man who harded him the change inquired if the correct amount was there, and the man coolly replicit "Yep, but it jest Was.

Things I never knew about moving loture films, until Jim Massie told me-there are sixteen frames, or picures to a foot of film-the average ull length picture is about 11,000 feet long-each foot of this illm has to be inspected for scratches and defects before it can be shown- if a theater damages the film in any way. they are charged nine cents a fact for same-and, if the 11.000-fact feature should burn, why is would mean just a mere \$100.00 bill to tay-and buck night as one time was used by over 11000 thea-tors in the United States-the man who originated the idea cuts the am\_ mmount from wh h -n-stor as the theater gives away weekly-what an idea-

Another thing I never knew until now is that is suse people cide more, and walk is the umbrills manufacturers estimate their business has been hur, by \$20,000,000 annually.

One thing that has puzzled me for a long time-some people loaf and seem to thrive, while others work hard all the time and seem to just exist.

Mose was told by his white friends that is was not right to leave his wife working hard over the wash tub while he just wasted his time away fishing To the rebuke. More replied: "Mah wife don't need no watchin'. She wuk jest as hard as if'n I was dere."

And in case you are interested, it is said that Harlem is the largest negro city in the world, claiming a population of over \$250,000 negroes.

C. E. Ray's Sons have in stock, an inlaid the rack which was purchased from a jobber in New York. The jobber in New York purchased the rack from Erkraft Industries, Waynesville. The racks were shipped to New York, and then back to Waynesville-yes, back to within a block of where they were made.

wards." adds this graceful athlete. Camels speed up the flow of digestive fluids increasing alkalinity, and bringing you a sense of well-being. Camels set you right!

POURS WHITE - HOT STEEL ( Heiner). "Chuck " Davis Boy! How I go for Camels at mealtime and after. They make my grub taste better-set better

## Quality - Dependability - Service

Alexander's has never restored to the doubtful expedient of lowering its standards to meet a price situation. We have always maintained and always will maintain the highest possible standards of quality and accuracy, at sound prices. On plain, sincere, consistent and strict adherence to a policy of Quality. Dependability and Service. we solicit a continuation of your business.

When health and even life are at stake, there can be no attractive substitute inducements.
