

Watkins Chevrolet Co. Moves To Main Street

Increase In Business Necessitated Larger Quarters

Plans Underway To Do Re-Painting And Make Improvements On Building

Because of a general increase in all lines of their business, Watkins Chevrolet Company has moved to Main Street, in the building formerly occupied by Tom Lee, Jr. The building is on the lot adjoining the Hotel Waynesville.

The move was made last week-end, and the firm is now open for business. M. D. Watkins, owner of the firm, stated that the new location gave larger quarters, and would enable him and his staff to render better service. Larger stocks of parts and accessories will be kept.

Plans are underway to repaint the building, and make several major im-

provements, it was learned. The building has a large show room, and a well lighted department for repair and storage.

The front of the building is devoted to service station equipment, and Texaco products will be handled exclusively, he announced. Besides Texaco products, Goodrich tires will be carried.

Mr. Watkins said he was pleased to be on Main street and that the anticipated increase in business would enable the firm to give better service than in the past.

Several hundred dollars will be spent on improving the building.

No changes are planned by Mr. Watkins in the policy of the firm.

The personnel of the firm is composed of M. D. Watkins, general manager, Mrs. M. D. Watkins, bookkeeper, W. T. Rainer, salesman, George Taylor and Robert Lewis, mechanics, Frances Garren, service station, and Fred Smith greasing and washing.

Spring---
AND HIGH TIME TO
OVERHAUL YOUR CAR

The old story that "a stitch in time saves nine" applies just as pertinently to the motorist. Minor adjustments and small repairs may prevent serious accidents and avoid costly damage later. It's sensible and worth while economy to have your car thoroughly checked and overhauled before the summer driving season begins.

MOTOR Valves ground and adjusted, bearings checked, pistons and carburetor carefully inspected and adjusted...our skilled and careful mechanics give your motor a thorough overhauling.

TIRES Modern tires are built for lasting service and satisfaction, but they need occasional inspection and testing to avoid blow-outs. We are agents for Goodrich Tires.

BATTERY No charge for battery testing. We inspect and service all standard makes of automobile batteries. Replacements and repairs quickly and economically made.

SERVICE Prompt, speedy service for all makes of cars. We carry a full line of standard parts and our skilled and experienced mechanics give you prompt and economical service at all times.

is a modern car with

PERFECTED HYDRAULIC BRAKES

Chevrolet's Perfected Hydraulic Brakes are unbelievably soft and easy to operate—always dependable—always safe and positive in action.

Chevrolet's exclusive double-articulated brake shoe linkage assures a full contact of the brake lining with the drums when brakes are applied.

Pressure tested tubing and heavily armored piping transmit braking pressure from the master cylinder to the four wheel cylinders, which exert their pressure to expand the two brake shoes—assuring perfect equalization.
