Somewhere in the neighborhood of 90 young people will graduate from our high school this week. They are a fine group, and from the records they have made, they are just as smart as they look.

This is a happy occasion for these young people, and it takes the hearts of us old people glad to know that they have taken advantage of the public schooling that is afforded them. They are better prepared for life now that they have completed four years of high school work.

This organization wishes for these graduates and their friends the best of wishes.

### Less Monthly Discomfort

Many women, who formerly suffered from a weak, run-down condition as a result of poor assimilation of food, say they benefited by taking CARDUI, a special medicine for women. They found it helped to increase the appetite and improve digestion, thereby bringing them more strength from their food.

Naturally there is less discomfort at monthly periods when the system has been strengthened and the various functions restored and regulated. Cardui, praised by thousands of women, is well worth trying. Of course, if not benefited, consult a physician.
