How To Apply For Social Security Aid Is Explained

Methods of applying for relief under the Old Age Assistance and Aid to Dependent Children Act adopted by the 75th General Assembly of North Carolina may not be clearly outlined in the minds of many persons who wish to secure the aid made possible through passage of the legislation which goes into effect on July 1. The procedure is simple. Applications must be made to county departments of welfare in the county in which applicant resides and must be prepared by interview with department officials. They must be in writing; prepared in duplicate (two copies); they must be sworn to by the applicant. The services of a notary public or of some authorized county official may be utilized for the latter purpose.

If event applicants are unable to appear, or cannot, for any other reason, but their applications, they may be prepared by officials or employees of the county welfare departments, who are authorized by law to prepare applications for those who are unable to do so themselves.

Applications must contain a statement of the amount of property, real and personal, owned by the applicant. Applicants may have an interest in all income applicants may have at the time of the filing of the application. Such additional information as the state board and individual administering agencies may require also must be furnished.

Following the filing of an application an investigation of the applicant will be made by the local department, in order to ascertain all facts in each case. This is a routine procedure, designed to see that justice is done to all applicants, and at the same time to prevent the possibility of fraud. The investigations are not intended to cause offense.

The investigations will be made by employees of the local departments, and the results will determine the amount of assistance the applicant is entitled to receive, should the application receive final approval.

The amounts applicants may receive will range as high as \$30 per month for old age assistance. In the case of children, there is a maximum of \$12 per month for the first child, and each additional child of the same family receiving not more than \$12 per month, except in particular cases where aid for a single family is \$54 per month, except in particular cases where the need is found to be greater. Decision of this character will be made by the state board, which will receive recommendations from the local departments.

Following the investigations, applicants are to be promptly notified by the local boards as to whether their applications have been approved or rejected. In the event of an unfavorable decision, the applicant has the right to appeal from the decisions of the local departments to the state board of appeals and appeal.

Some of the payments made through the Social Security program, according to the law, shall be subject to garnishment, levy, attachment, garnishment, or other legal processes, nor to the operation of any bankruptcy or insolvency law. Neither shall any of the payments be transferable or assignable in any manner.

These safeguards were embodied in the act for the protection of recipients of assistance, but there are other provisions which tend to protect the county and the state from would-be fraudulent persons. The act, in that respect, reads as

Unique Wedding Invitations Issued By Miss du Pont

Guests invited to the wedding of Miss Ethel du Pont and Franklin D. Roosevelt, Jr., found enclosed with each invitation a privately printed railroad time table and a miniature road map. Printed in black on rich ivory tinted paper, the train schedules are on small cards which show New England guests the time trains leave Boston, Southern guests the time trains leave Washington, and New York guests the schedule of trains departing from that city. The maps folded inside the invitations show roads from Philadelphia to Christ Church, Christiansa Hundred, Del., where the wedding will be solemnized at 5 p. m., on June the 30th, and at Owl's Nest, the Eugene du Pont residence at Greenville, where the wedding reception will be held at 5:30.

Static Electricity Might Have Caused Fire On Zeppelin

Dr. Hugo Eckner, the world's foremost authority on lighter-than-air craft and head of the German commission investigating the Hindenburg disaster, testified before the American board of inquiry recently that he believed hydrogen leaking from a gas cell was ignited by static electricity. Although he left it to the official investigators to decide whether they regarded this as a probability or a possibility, Dr. Eckner made it clear that he considered it the most plausible explanation of the fire and the explosions that took thirty-five lives on the night of May the 6th, as the German dirigible was about to land.

Whoever knowingly obtains, or attempts to obtain, or aids or abets any person to obtain by means of willfully false statements or representation or by impersonation, or other fraudulent device, assistance to which he is not entitled, or assistance greater than that to which he is justly entitled, shall be guilty of a misdemeanor, and, upon conviction thereof, shall be fined or imprisoned, or both, at the discretion of the court.

John D. Rockefeller Passes Away At 98

On last Sunday morning at 5:05 o'clock John D. Rockefeller, Sr., founder of the world's greatest "dollar dynasty," died at his winter home in Ormond Beach, Fla. He would have been 98 years old on July 8. His great desire to live to be one hundred was denied by 26 months.

This man who rose from a \$4.50 a week clerk to the mastership of a fortune estimated as high as \$2,400,000,000 died a comparatively poor man. A family spokesman said he left a "relatively small liquid" estate. In his life time out of the golden current that came with the years, and made him the greatest "money titan" in history, he had given away the amazing sum of \$530,830,000. Other gifts by his son raised the total to more than \$7,000,000,000. Burial was in Cleveland, Ohio, where in 1855 he

trudged the streets for six weeks before he landed his first job.
