Frazier, Salem, Oregon, S. D. Rathbone, Lake Junaluska.

First Navy Admiral Honored With Marker

David Glasgow Farragut, first Admiral of the United States Navy, was born in Tennessee July 5, 1810. He died in New Hampshire Aug. 14, 1870. Last week, on the 136th anniversary of his death, his achievements were recalled when in Hasting-on-the-Hudson, where his family lived during the War Between the States, a flagpole and tablet were dedicated in his honor.

Steel Stacks Smoking Once More

Scene at Youngstown mills

Smoking steel stacks silhouetted against the sky, with national guardsmen on duty in the foreground to prevent violence, signalize resumption of work at the Youngstown Sheet & Tube Co. plants in Youngstown, above, and at other steel units in Ohio, Illinois and Pennsylvania.

Trade In State Is Above That Of 1929

Raleigh.—Business conditions in Carolina during the fiscal year which ended June 30 than for the corresponding period ending June 30, 1929, judging from the state income tax collections this past year amounting to \$11,013,081, Commissioner of Revenue A. J. Maxwell said recently, in commenting on the total collections just released by the department of revenue. Total general fund collections this past fiscal year amounted to \$97,089,925 as compared with collections last year of \$28,755,425, an increase of \$68,334,500 from the same taxes and under the same revenue act—an increase of 23.98 per cent. Highway fund collections showed an increase of 14.34 per cent for this fiscal year over collections during the 1935-36 fiscal year, with receipts of \$31,401 this year as compared with \$27,194,885 for the previous year—an increase of \$3,899,515. The increase in the collections for both funds was \$12,234,015 greater this year than during the year ending June 30, 1936.

School Dedicated To Memory Of Wiley Post

As a memorial to Wiley Post, the Oklahoma aviator who died in a plane crash with Will Rogers in 1935, the town of Maysville, Okla., has dedicated a new school building. The school marks the site where Mr. Post, twenty years ago made his first parachute jump.

Cowpeas Good To Plant Between Rows Of Tobacco

Cowpeas are a good crop to plant between tobacco rows in the last culture. The peas will grow up and shade the tobacco plants, and when they are ready to be plowed under, they will serve as a green manure. While the peas are growing, they may be used as a source of nitrogen for the tobacco. Blair also pointed out that the time of the last culture on the coastal plain area where the rows have already been planted. Corn should be cultivated until it is four feet high, as this maintains a mulch that keeps the soil moist and prevents the roots from being injured by the sun. Frequent shallow cultivations for cotton, Blair continued, are advised against planting and soybeans in July expect to make a full crop of corn that time, and said that it is profitable to get ready for a crop of small grain.

The Service that adds Comfort to Your Home

During these hot summer days, the time you save with a telephone to aid in settling daily problems may be the difference between a day that worries your nerves into a frazzle, and a day that includes the time you need for relaxation. There are so many details in running a household. An extra loaf of bread from the grocer—a six o'clock order of ice cream from the drug store—and so on. And with a telephone to run your errands, many concerns of the day are easily disposed of. Of course, most everyone is familiar with the value of telephone service, but if you are trying to get along without a telephone you may be surprised, and pleased, to know how little it costs to have a telephone in your home. All you need to do is to ask any telephone employe, or get in touch with the telephone Business Office. Order your telephone today, and add comfort and protection to your home.

LETTERS to the Editor

TO MY HAYWOOD COUNTY FRIENDS

Ten years ago Haywood county did not have a county agent. The farmers were unorganized. When I left the work July 1, this county had the best organization in Western North Carolina. This is what I have repeatedly been told by other agents. I have been working for the public more than twenty years. The farmers and business men of this county have given the best co-operation I have ever experienced. This has been appreciated all along. It is now great satisfaction to me to know that I have the friendship and confidence of more than ninety-five per cent of the people of this county. It has been my motive and purpose at all times, to do good to every one and not evil. I have put into worthy causes for Haywood county each year from one hundred to six hundred dollars. Among other things as a result, we have better marketing for all the people. We have new enterprises bringing in thousands of dollars: First, our local milk plant; second, local cannery and Land O' Sky Co-operatives; third, a live conservation association. I am glad I have had the opportunity to have served with so many good people. It is my desire to see these projects go on to full development. The success of these things depends upon all of you co-operating. Do not depend upon the small group to do the right thing. Our home is here by choice. If we can at any time be of service to any one we will gladly do it. It has been a real pleasure to have worked with all our friends. All of these contacts will remain "Apples of gold in pictures of silver" to me. W. D. SMITH.

Radio Road Patrol Cars Will Use Code

Expect Plan To Aid In Capture Of Fleeing Criminals. Will Be Ready Aug. 1st

Raleigh.—"Calling all patrol cars, calling all patrol cars; XY at GR at noon today; BDS heading north; watch all RDS for BDS and stop all CRS if look suspicious." Messages such as this, only less intelligible to the average person, are what highway patrolmen are likely to hear from their receiving sets when the new highway patrol radio communications system gets into operation early in August. For most of the calls which will be sent out over the five patrol stations to patrolmen and officers all over the state, will be sent very largely in code known only to patrolmen, police officers and sheriffs, Capt. Charles D. Farmer said today. Some of the code will be known only to highway patrolmen and their officers, so that the stations will be able to communicate confidential information to them without any one else knowing what it is all about, Captain Farmer said. "Suppose there should be a bank hold up somewhere in the state and we should spread the alarm by announcing over the radio 'Bank hold up in Greensboro at noon today, bandits heading north; watch all roads for bandits and stop all cars if look suspicious.' That would immediately tip off the bank robbers and their confederates, since the chances are that nine times out of ten they will have radios in their cars, too. "So we will use a secret code that will have meaning only to all the patrolmen, but which will mean nothing at all to any one who is not familiar with this code. In this way we will be able to spread an alarm in case of a bank robbery, prison break, hold-up, riot or other trouble and direct officers to the vicinity in which they are wanted, without letting the public or those 'involved know anything about it." The code, now being prepared by Captain Farmer and his assistants, must be submitted to and approved by the federal communication commission in Washington before it can be used.

State Revenue Is Above That Of 1936

RELEIGH.—New record total of \$68,184,327.04 flowed into revenue coffers of the state of North Carolina during the fiscal year ending June 30, exceeding by \$12,234,015.33, or 21.87 per cent, the 1936-37 total of \$55,950,311.71. June receipts of \$4,287,797.37 exceeded those of the same month a year ago by \$306,129.75 and indicated that recent estimates of Governor Hoey and others that the state's surplus at midnight would reach between \$4,000,000 and \$6,000,000 would be fulfilled. Sales tax and income levies each brought in more than \$11,000,000 to set new records. The sales income was \$11,325,661.48, compared with \$10,184,301.57 last year, and income taxes soared to \$11,013,081.59 from \$7,769,809.63 last year. Inheritance receipts reached a new high at \$4,009,250.52, compared with \$540,069.39 last year.

Claim That WPA Education Program Reduced Illiteracy

The WPA education program has reduced illiteracy in the United States by one-sixth according to an estimate recently made for the House Appropriations committee, by Administrator Hopkins. During the past three years WPA instructors have taught 700,000 men and women how to read newspapers and write letters. More than 6,000 teachers have been engaged in the work. The educational program of WPA goes far beyond fundamentals. Opportunity has been given to thousands of adults, whose schooling never went beyond the lower grades, to take up the interrupted thread of their school work.

MARRIAGES

(As Recorded to Monday Noon of This Week)

Nathan Rathbone to Kathleen Arrington, both of Waynesville. E. J. Schulhofer, Jr., to Elizabeth Milner, both of Waynesville. William T. Mason to Hazel E. Cooper, both of Canton. Hall Keener to Edith Bumgarner, Both of Waynesville. Horace Downs, of Waynesville, to Edith Putnam, of Clyde, Route 1.

Democratic King Nicholas I, who ruled Montenegro from 1830 to 1918, was one of the most democratic kings of modern times. In Cetinje, the capital, where his subjects called him "Boss" and he called them by their first names, he also acted as judge, poet, physician, theater director and even postmaster, personally selling his stamps—often with a free drink on the side—in a room of his palace.—Collier's Weekly
