Mrs. Dave Hicks, of Canton, announce the birth of a son, on October the 4th.

Physical Education

Induces Better Attendance At School

Physical education has been added to the course in the high school and attendance has shown a marked increase, according to C. E. Weatherby, principal and athletic director of the school.

In an address before the Rotary here last week, Mr. Weatherby said that records showed almost 100 per cent attendance in school for boys and 90 per cent for girls. A group had physical education. The course requires two and one-half hours a week, and at present 150 boys and 200 girls are taking advantage of the classes. The 55 boys on the football team, are not included in the regular physical education classes.

They are interested in training the mind in team-work, co-operation, increasing alertness of mental faculties. Every child is interested in games, and it is always easy to increase the character of a child when they are participating in games.

"The attitude of those taking physical education is altogether different from what it was before," Mr. Weatherby said.

A physical check was made on boys here for a three-month period, and the average net gain in weight was between 3 1/2 and 4 pounds, and the average height gain of three-quarters of an inch.

Weatherby said a lack of funds was holding down the general physical education work. He pointed out that they had to work with what the school funds derived from gate receipts of games.

Large Docket Disposed Of By Mayor

Arrests Over Week-End Were Heavy. Number Sent To Roads, Others Pay Fines

Twenty-four were haled before Mayor J. H. Way here Monday for one

of the largest dockets in many months. The charges ranged from attempting to steal an automobile to being drunk and disorderly.

Eight were sent to the roads, while several paid fines.

Last Saturday afternoon, four young men are alleged to have attempted to steal a car belonging to LeRoy Davis. Police arrested all four, but one got away during the round-up and has not been caught. Another

was released from jail by an error on the part of an officer, and the other two were bound over to superior court under \$500 bond. The two bound over were Wayne Stewart and James Guy. Rubin Palmer and Roy Shelton charged in the warrant, are still at large.

A free-for-all fight accounted for eight arrests, but only three were found guilty.

Other cases were:

Ed Cope, drunk, 32 days on roads.

Vance Caldwell, drunk, 60 days on roads, two counts.

Floyd McAbee, drunk, 32 days on roads.

Ed Singleton, 32 days on roads and \$10.60 fine.

Redmond Lenoir, operating car while drunk, 3 months on roads.

"Red" Higgins, drunk, 60 days suspended sentence, fined \$10.60.

Bob Gaddy, drunk, 32 days on roads.

Keifer Moody, drunk, 32 days on

roads.

Ben Kirkpatrick, case continued until October 9th.

Glennie and Hilda Moody, loitering, ordered to leave town.

Montevideo a Corruption

The hill which rises behind the capital of Uruguay was originally called "Monte-xien" (Mountain Saw I) by Magellan, but was later corrupted into Montevideo.

# We Are Exclusive Dealers Here For SECURITY FEEDS

A Letter From A Security User...

I have used a number of dairy feeds, including home mixed, in my breeding and feeding for official records with my purebred registered Jersey herd. I have found through several years' experience that Security Feeds not only keep my cows in good physical condition but always make my cows milk well. In fact, one of my best cows on a 305 day official test produced a record which made her state champion. This record was made on your "Big S Dairy Feed."

**SECURITY DAIRY FEED** is designated for the dairy farmer who desires his herd to produce the greatest amount of milk for each pound of concentrate fed. Generally it is best suited when the roughage is principally carbonaceous (grass hays, stover, corn or sorghum silage, etc.) or when legume roughage is of poor quality. The quality of the proteins, the mineral balance and granular texture of SECURITY DAIRY FEED promotes a high physical condition and discourages udder troubles, shy breeding and frequent replacements in the herd.

**SECURITY 20% PROTEIN DAIRY FEED** is a companion feed to Security Dairy (24% protein) and is adapted to the herd of the dairyman desiring heavy milk flow when good pasture and quality legume hays are available. The palatability and high digestibility of all nutrients and minerals in this feed leaves the cow, after many years of feeding, in excellent physical condition.

**SECURITY DAIRY FEEDS—Your Best Bet For More Milk and Butter Fat.** Security Dairy Feeds contain all the ingredients that tend to increase the milk production of cattle. There are, of course, cheaper feeds on the market today, but you will find upon trial that the increased milk production gained by feeding Security Dairy Feeds will more than make up for the difference. Ask the dairyman or breeder who uses Security Feeds.

Just what you get in SECURITY DAIRY FEED, anyway?

- You get feed that provides proteins at reasonable cost.
  - You get the necessary vitamins and minerals in proper amounts.
  - You have few udder troubles.
  - You have less breeding trouble and stronger calves.
  - You get increased milk flow at a lower cost per pound.
  - You have fewer cows "off feed."
  - All in all you get the best feed your money can buy—
- BUY SECURITY**

We have Security Feeds for Chicks, Chickens, Horses, Mules, Dogs, Hogs, laying mashers—in fact anything you might need in feeds.
