Trailerites Are Almost Tax-Free

Chicago.—Trailer inhabitants—the hordes of the folding breakfast tables—are singularly free from direct taxation by communities they visit or reside, a survey by the American Municipal association has disclosed.

Fifty-three cities answered the association's queries and of these 29 imposed no tax whatever on trailerites.

Twenty-four cities levy taxes but, with one exception, on the operators of trailer camps rather than on the roaming knights of the highways themselves.

The exception is Peoria Heights, Ill., population 3,200, which charges a direct, annual tax of \$50 for each trailer.

Annual license fees charged operators of an average camp of 30 units range from \$4.80 in Phoenix, Ariz., to \$225 in Virginia Beach, Va. The latter assesses a fee of \$100 for the first five units and \$25 for each additional five units.

Both Peoria Heights and Virginia Beach emphasize in their ordinances the obligation of the trailerite to contribute to cost of community service such as fire and police protection.

Pasadena, Calif., charges the camp operator \$165; eleven cities charge \$15 or less and ten cities \$16 to \$50.

Seventeen cities restrict places where the trailerite may park his traveling "teepee" to authorized camps. Thirty-six cities allow location at will, but 15 require permits and five charge for permits, as follows: Miami, Fla.; Pasadena and East Cleveland, O. \$1; Harvey Cedar Borough, N. J., \$2; Peoria Heights \$50.

Nine cities limit the time trailerites may stay, ranging from 24 hours in Janesville, Wis., Long Beach, Calif., and Seattle, Wash., to 90 days in any 12-month period in Pasadena.

It is a sad reflection on civilized man when so many laws have to be passed to keep him honest.

The old-fashioned man who never thought anything of walking 10 to 12 miles in an afternoon has a grandson who never thought of it either.

Dumb animals are the ones that grow old without overtaking their hearts in an effort to be young again.

You won't have to hunt hard to find people who don't believe in law or anything else when it interferes with their own interests.

Asthma Sufferers Welcome This News

Those afflicted with bronchial asthma will be glad to learn that a local pharmacy is now offering under a money back guarantee, a doctor's prescription that has been in use for more than 25 years with a record of unusual relief from bronchial asthma symptoms in thousands of cases.

TWO LETTERS RECEIVED RECENTLY

The first is from Mrs. F. of Lexington, Ky., who writes as follows: "In 1932 I was very ill with an attack of asthma. Finally, I purchased a bottle of your asthma remedy. I was somewhat relieved; and after the purchase of the second bottle, I seemed to be cured. It has now been five years, and I have had no further trouble." Records show that Mrs. F. had been afflicted for 18 or 20 years.

The second letter comes from Mr. D. of McCune, Kan. "I feel like your medicine cured me. After taking almost two bottles, I haven't had asthma for about eight years. I have a friend who has a chronic case of asthma, and would like for you to get in touch with him." Records show that Mr. D. had asthma for 25 years. He had possibly spent a sum sufficient to buy 25 bottles of Dr. Fugate's Prescription. It will place you under no obligation to call for complete detailed information. It will place you under no obligation call at Smith's Drug Store.—Adv.

LIQUID, TABLETS, SALVE, NOSE DROPS, Headache, 30 min. Try "Rub-My-Tiam"—World's Best Liniment

Still Coughing?

No matter how many medicines you have tried for your cough, chest cold, or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel the germ-laden phlegm. Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained from the very first bottle. Creomulsion is one word—not two, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

Woman, Eighty, Is Still Head Of A Large Company

Last Thursday in Johnstown, N.Y., Mrs. Charles B. Knox, pioneer woman food manufacturer, maker of Knox's gelatine, arrived at her office shortly after 9 o'clock in the morning and did a full day's work. That night her employees gathered at her home to celebrate her eightieth birthday, and the thirtieth year since she had taken over the business after the death of her husband. They presented her with eighty roses in a silver vase. Messages were also received from President Roosevelt, Governor Lehman, and many other dignitaries. Mrs. Knox, a native of Ohio, believes in running her factory like her family and her home—in a woman's way. Recently anticipating her 80th birthday she donated \$50,000 to six charitable institutions. She has given Johnstown an athletic field, stadium, swimming pool and a field house.

Fish And Milk Make Safe Combination Food

Belief That Person Eating The Two At Same Time Will Become Sick, Is Discounted

The popular superstition that fish and milk make a dangerous combination is just so much hokey, said Fred M. Haig, of the dairy department of State College.

This belief, he said, probably started in days before refrigeration when people who got sick from eating fish that was not strictly fresh happened also to drink milk at the same time.

No facts of food chemistry or physiology substantiate this old belief he went on. Experience of years disproves it.

Other people are afraid to drink milk and eat acid fruits at the same meal. They say that acid fruits will curdle the milk in the stomach.

As a matter of fact, the first thing the stomach does to milk is to curdle it so it can be digested. And curds formed from fruit acids are finer and easier to digest than those formed by stomach gastric juices alone.

Another oft-told admonition is that sipping milk slowly instead of drinking it naturally aids digestion. Research studies have shown that when milk is sipped slowly the curds formed are bigger and harder to digest than those formed when it is drunk rapidly.

Milk is no more fattening than any other food containing the same number of calories, Professor Haig declared. Milk is the most nearly perfect food.

He said growing children need at least a quart of milk a day, and adults can drink a pint a day to good advantage.
