

Citizens Asked to Co-Operate In Clean-Up Week

Mayor Way Issues Proclamation On Clean-Up Week

Clean-Up, Light-Up To Stressed During Coming Week

A proclamation calling upon all citizens, firms and individuals to "do their part to make this a cleaner, brighter, and more beautiful place in which to live," was issued yesterday by Mayor J. H. Way, in co-operation with national clean-up, paint-up, and light-up week, April 23-30.

Departments of the city government will join in to carry out a comprehensive clean-up campaign.

A statement covering every phase of the campaign was issued by Miss Margaret Smith, chairman of the campaign:

Complying with the following suggestions will aid materially in maintaining a clean and sanitary condition of the city.

The supply of regulation garbage cans with handles and tight lids will keep down odors, prevent breeding of mosquitoes and flies, and scattering of trash.

The wrapping of garbage before putting it in the can will cause it to rot easily without the necessity of emptying the can on the side of the street, possibly damaging containers. It will also keep container in a sanitary condition as well as prevent acids corroding and deteriorating the metal.

The placing of cans and other trash at convenient accessible point will aid in collection and prevent unnecessary delays.

Garbage can be prevented from overflowing by using a small platform with a frame around it, or by staking over which the handles are hooked, or by using a hook of description placed in side of garbage fence, post or tree.

Limbs should not pile limbs, and grass trimmings or leaves in the rear of garage or the rear of vacant lot simply to get it out of sight. It will be collected more readily and with much less trouble if placed in an accessible place in full view. This will also prevent an accumulation which will eventually cause a lot of trouble.

Old dilapidated buildings, garages and fences that are of no service or value should be torn down and removed now. This will eliminate an eye sore that must eventually go. Why not relieve your vicinity of this unsightly condition NOW?

"Any article from your furniture or car to your home or warehouse needing painting is worth it if it is worth having. Painted wood will not burn as freely as dried, unpainted timbers. Painting will beautify, protect from weather elements and may prevent a serious conflagration.

HAZARDS
 "The removal or trimming of high hedge or shrubs at street intersections or adjacent driveways or alleys will eliminate a serious hazard. The planting of shrubs and grass will add materially to the looks and value of your property.

"Cars and trucks no longer in service that have been left on streets should be removed. They create a

the part of the management and employees—the only requirement being an honest effort.

"Very few people realize the danger and unnecessary cost of throwing and sweeping trash into the gutters. This not only keeps the streets littered and dirty, but eventually a great portion of it finds its way into the storm-drains obstructing them to such an extent that it becomes necessary to dig up streets to clean out accumulated trash. There is also the possibility of flooding basements. At any rate this trash will eventually find its way into our small streams, creating a very filthy condition there.

"It is estimated that in any given community the rat population equals that of human inhabitants. They are very prolific, producing an average of five litters annually. It is also estimated that the cost of feeding a rat is about \$2 per annum. In addition to this, they destroy valuable merchandise, commit arson and are instrumental in taking human life through harboring parasites which transmit disease. Do away with shelter and food and they will have no excuse to tarry on your premises.

"There are hundreds of places where plumbing, wiring and repairing need attention from the standpoints of health, fire hazards and actual safety to our entire city. Small inexpensive repairs now will prevent more costly ones later.

"Old dilapidated buildings, garages and fences that are of no service or value should be torn down and removed now. This will eliminate an eye sore that must eventually go. Why not relieve your vicinity of this unsightly condition NOW?

"Any article from your furniture or car to your home or warehouse needing painting is worth it if it is worth having. Painted wood will not burn as freely as dried, unpainted timbers. Painting will beautify, protect from weather elements and may prevent a serious conflagration.

Youth Council To Meet At Presbyterian Church

The Youth Council will meet at the First Presbyterian church on Tuesday, April the 26th. All members are requested to be present, as matters of interest will be brought before the group.

On Thursday evening, the 28th, the council is sponsoring a box supper at the Ratchiff Cove community building, for the purpose of raising funds for advancing their cause. The girls of the council are requested to bring boxes, which will be auctioned off during the evening.

Clark Attending State Electrical Meeting

Robert Hugh Clark, superintendent of the light department of the town, is spending this week in Raleigh. Mr. Clark is attending a state wide school of instruction for the superintendents of the city light departments of the towns in North Carolina.

Modern Spouse

A.—Do you know your wife is telling around that you can't keep her in clothes?

P.—That's nothing. I bought her a home and I can't keep her in that, either.

Winter Is Over . . .

Clean-Up Week Is Here

WE SUGGEST

That You Do A Complete Job By Sending All Your Winter Garments For A Thorough Cleaning.

Don't pack winter clothes away unless they have been through our modern plant, and under the supervision of an expert with many years experience.
