

Clean-Up Week Starts Monday

(Continued from page 9)

every citizen will be needed to really clean up the town, and get it ready for this summer. Your special community is just what you make it, so we are urging each home maker and property owner, to look after their own places, and the town will do its best to see that you have co-operation in the matter.

"If the truck should accidentally be delayed, call Mr. Clark at the town hall and he will see that your vicinity is visited at once, and will give you every co-operation in your clean up efforts."

One-Legged Kidnaper Captured

Sheriff Edmondson "Peg" Stockton Deputy Holmes

The wild though brief rampage of Leonard (Peg) Stockton, one-legged alleged paroled convict, ends with his capture. Running amuck, Stockton allegedly kidnaped three persons, stabbed one to death and held up the bank of Garford, Tex. He is pictured after his arrest between Sheriff John Edmondson, left, of Palo Pinto county and Deputy Sheriff Faybert Holmes, right.

The 'Arabian Nights'
The "Arabian Nights" are a collection of stories which were probably written by different people over a period of several centuries, says London Answers magazine. They were first translated into English about 1840 by Edward William Lane. There have been several translations from the French; but the only English translation direct from the original was that of Sir Richard Burton.

Wisdom and Knowledge
There are millions of miles of distance between wisdom and knowledge. Wisdom is the ability to deal intelligently with the things that relate to life. It is judgment, discretion. Wisdom is man's best friend, and as a rule it comes through some severe test.

ON THE ROUNDS WITH THE CIRCULATOR

Over Haywood County

By Robt. M. Clark

For a few days opinions seemed pretty evenly divided as to what effect our recent cold nights had had on apples and other fruits. The present consensus, however, seems to be that a few apple buds were frozen; just about enough to make the coming crop a better one, by limiting the number of apples per tree.

Grover Abel of Henson Cove is about back to normalcy following an attack of flu. Brought on, he says, by failure to include an overcoat with his other impediments on a trip to Virginia.

Wade Noland is building a five-room house on a small tract he owns in Crabtree township, to be occupied by Grady Noland, when completed. Frank Leopard is helping with the hammer-swinging.

J. O. Kinsland, of the Garden Creek section, is hobbling around with a rather severe case of rheumatism.

And Daniel Smith, of the same community, has been ill of late.

While Mrs. Roy C. Roy, of Hazelwood has been the victim of a long-lingering flu attack.

Leo Ray has moved his family from Maggie to Clayton, Georgia, where he has employment with the Clayton Lumber Company.

Mrs. James E. Toy is taking a two-week's vacation from her duties in the telephone office.

Summer people are commencing to arrive. In Balsam one day this week your Circulator learned that Mrs. A. D. Lewis, of Louisville, Ky., and Mrs. E. Braren, of Oak Hill and Daytona Beach, had arrived and were occupying their respective cottages.

And perhaps you had noticed the increasing number of foreign cars. Twice in the past week the Circulator has made a count while driving a few miles on the Asheville highway. In

Willard Holder, Wins Fourth Prize In The State Essay Contest

Willard Holder, who has been an active member of the Fines Creek Future Farmers of America Club, for the past three years, won the fourth prize in the annual essay contest sponsored by the Chilean Nitrate Educational Bureau.

The subject of the essay was "How the major crops grown on my farm are fertilized." The prize was a check for \$5.00. Last year Fred Hembree, of the same club, won second place in the contest.

Young Holder, who will be a senior in the Fines Creek High school next year, is the son of Mr. and Mrs. Herman Holder, of the White Oak township. He served as cashier of his club bank last year.

B. G. O'Brien, vocational agriculture teacher, of the school, was appraised last week by the state office of vocational agriculture of the prize won by Holder.

each instance the ratio ran about one out-of-state car to two and a half "home-owned."

While, in one afternoon, these license plates were noted (in some instances more than one of each): New Jersey, Connecticut, Ontario, Indiana, Wisconsin, Michigan, District of Columbia, Georgia, Missouri and South Carolina.

Also, one lady with a tourist home directly on the highway, was heard to say that twice within a week she had been forced to turn people away.

Thus it would seem that Western North Carolina's best "crop" is ready for the harvest.

Eiffel Tower Turns 50 At Celebrations

PARIS—With speeches and playing of the "Marseillaise" the Eiffel Tower celebrated its 50th anniversary with a birthday party on the first floor of the 975-foot structure.

Several hundreds of persons, including many officials and political figures, headed by Anatole de Monzie, Minister of Public Works saw the tower hoist the same flag as a small boy, he raised to the top of the tower on March 29, 1889.

Carnot is the son of President Marie Francois Sadi Carnot, who was assassinated at Lyons in 1894.
