Grady Rogers To Be In Charge Of Repair Department

For many years, Grady Rogers has been connected with the automobile industry, and for the past year or so has been owner and manager of Soco Garage.

He will now have charge of the repair department of the Waynesville Motor Company, of which Tom Rainer is owner and general manager.

For the past week, workmen have been working over-time in getting the large airy shop in first class condition. Everything has been repainted, and put in "apple pie" order. Competent mechanics will work in the department under Mr. Rogers.

Refreshments: Sweet and fancy substitutes for honest victuals, usually served at parties. Lunch: The same stuff served at drug stores.
