

It Pays To Give The Land What It Needs, Says Grover J. Abel

By Grover Abel, Pigeon Township.

My line of work is farming. When I began work on the farm as my own, it was in poor state of cultivation. So I began studying my soil and its needs and found the three main constituents to build up soil—nitrogen, phosphate, and potash. I found by using lime and phosphate, most land will produce clover and other legumes; then with crop rotation and on some types of soils and crops apply potash. Then I don't worry that land will feed me and itself.

I never hesitate to buy what my land needs, regardless of my financial condition. Before we had soil building practices, I bought twenty tons of lime at \$4.90 per ton; so last year I took nineteen tons on my farm payment.

For the past four years I have been using lime and phosphate as a demonstration on pastures. I can tell it is thinning out are old broomsedge. I find clover and

lespedeza taking its place. I think it is wonderful to hold our old hills until we can get something better.

I consider livestock one of the most important things on the farm. I feed them what I grow on the farm and it is returned to the land, therefore, building up my soil and bringing in a cash income, too. I have a small herd of Hereford cattle; I am proud of my two purebred cows and two bull calves. I intend to improve my cattle as fast as I can.

Now I want to praise our county agents. There are no mner or more competent men. They have been so much help to me. Their good work is to be seen all over the county.

SPRAY OR DUST

Admitted withdrawal of Allied troops from Namsos and surrender of the Norse central-southern armies puts Germany in full control of the greater area of Norway (dotted area). At Narvik, Allied forces are reported to be still hammering at German forces. Norway, thus becomes an ideal jumping-off base for Nazi bombing planes. Airline distances to British Isles are shown.

The "Wizard"

David Lloyd George, England's premier during the last war, is shown as guest of honor at a recent luncheon of the national defense public interest committee in London. The Welsh "wizard," an enthusiastic farmer, spoke on the relation of food production to national defense.

stone, 3 basses, and 4 drums. Anyone wishing to attend the morning rehearsals are cordially invited by the director, L. T. New, Jr.

Beginning classes on the mellophones, baritone and snare drums, will get underway this week. Those students who have had saxette experience are asked to make arrangements to take up this work this week.

At the rehearsal held on Tuesday the band elected an executive committee of their members to act as a policy committee and to handle all cases of absences and to set up a general regulation program for those wishing to take a leave of absence.

Dorothy Richeson was elected chairman of the committee with the following members representing the various instruments: flute, Patsy Gwyn; Dot Milner, cornet; Capus Green, mellophone; Richard Bradley, saxophone; Ruthie Wagenfeld, trombone; Earl Buckner, bass; Rufus Jackson, drums; Pink Francis, baritone.

COOPERATE

IN THE

Drive On Rats!

TAKE PART IN THE

Rodent Campaign Controll

Now Underway In This Community

THE SUCCESS OF THIS ANTI-RAT DRIVE WILL DEPEND ON YOUR COOPERATION!

A rodent control campaign was begun in Waynesville Tuesday and will last for six days. This drive will be under the supervision of John D. Faulkner, engineer with the Typhus Control Unit of the State Board of Health.

Every citizen of this community is requested to cooperate in the drive, as it is necessary to put out bait in all homes infested with rats if the campaign is to be a success.

Prepared bait will be put out at no cost to you. Cooperate fully with those who visit your home to place bait. Let's rid Waynesville of rats!

J. H. WAY, Jr., Mayor
