Softball Attendance Under 1939 Figures

Cool Weather Handicap To Players; Interest Is Increasing With Games

The Waynesville, Hazelwood and Lake Junaluska Softball season officially opened last Wednesday, May 8, with the attendance slightly short of the opening last season.

After a week of play, interest is beginning to increase as the teams become faster and more accurate.

Several girls' teams are in the making again this year and are expected to place good teams on the diamond.

The Tourists won the Piedmont pennant last season and W. N. C. fans expect them to make a good showing for themselves this year despite the slow start.

All kinds of speculation can be heard and read about the big leaguers. With the Yankees in the slump that they are at the present there is all kinds of prophecies that they will not even be in the money this year.

Anglers are still having the time of their lives on the mountain streams, and good catches are reported from most of them.
