

### Two Waynesville Girls Have Roles In College Play

Grace Leatherwood, daughter of Mr. and Mrs. R. V. Leatherwood, of Waynesville, and a graduate of the Waynesville High School, and Alma Jackson, daughter of Mrs. R. W. Jackson, of Waynesville, and also a graduate of the Waynesville High School, both have important parts in Owen Davis' Pulitzer prize play, Iceland, which the Dramatic Club of Western Carolina Teachers College is presenting at the college auditorium at Cullowhee, Friday evening, May 24, at eight o'clock.

Iceland, the second play to be sponsored by the Dramatic Club this year, was considered a landmark in American drama when it was first produced at a New York theater a few years ago. It is a play of characterization. Stern tight-tipped, morose New England characters play their parts against the drab, cheerless background of a New England farm-house isolated in its snowbound loneliness.

Miss Leatherwood and Miss Jackson are both sophomores in college and both are active in campus activities. Miss Leatherwood was assistant director of the Dramatic Club play. The Whole Town's Talking, produced in April.

The play is being directed by Miss Mabel Tyree, instructor of English and German in the college and sponsor of the club.

The public is invited to attend.

An Idaho flying instructor's glasses fell off as he leaned over the cockpit but he watched them fall and was able to find them after he landed. What we can't figure out is why a fellow who can see that well needs glasses.

Did you notice for the past season, nearly every man's hat had a cute little feather in it? First thing you know the boys will be wearing humming birds.

### FFA Boys Buy Purebred Hogs

#### Plan Underway To Place Many Purebreds In County By New Method

The Smoky Mountains National Park chapter, Future Farmers of America, recently brought into the community ten purebred Poland China and Duroc Jersey gilts. The hogs were bought from the University of Tennessee and the object is to increase the number of high-producing purebred hogs in the section. All the gilts were from high-producing sows owned by the university. The Durocs were from record of merit sows, which means that the sows average eight pigs per litter and the pigs must weigh forty pounds or above when six weeks old. The dam of one of the pigs is one of 340 sows in the United States making the "Register of Merit" herd book.

The gilts were bought by the chapter and re-sold to members on a time plan, financed by the local bank. The plan is that when the original gilts farrow the owner is to let another member of the chapter have a gilt who will replace the hog when his gilt farrows. By such a method the number of purebred high-producing hogs in the county will be increased at a rapid rate. All participants in the plan agree, of course, to breed their gilts only to purebreds. The chapter is buying a purebred boar of high-ranking stock and this stock hog will be available to the members of the chapter as well as to any other person who wishes to use him.

Those buying the gilts were: Keith Ketner, Edgar Norman, Linden Turpin, Raymond Coward, Elmer Hendrix, Robert Hosoflook, Ralph Hendrix, Ernest Sutton, Neal Leatherwood and Bob Jordan.

### Asheville Flower Show Will Be Held On Friday

The second annual spring flower show of the council of Asheville Garden Clubs will be held at the Asheville Club for Women on Friday, May 24, from 2 to 10 p. m. Mrs. R. T. Cecil, the general chairman, announces that the show will have four main divisions: the horticultural section in which the various classes of flowers will be entered in competition, the commercial section, the educational section, which will include the junior classes and an exhibit of wild flowers, and the section for arrangements. Mrs. W. W. Dodge, Jr., floor plan chairman, has drawn up a plan by which visitors to the show will enter through a garden walk leading to the main portion of the auditorium in which these sections will be displayed.

Of special interest to the growing number who experiment with flower arrangements, will be a class displayed in shadow boxes, individually lighted, in which flowers of analogous, that is related colors will be arranged. Each contestant will be given a range of the color spectrum on which to base her exhibit. Reproductions of the spectrum will be posted by this class so that visitors can judge for themselves the success and interest of the arrangement.

## VOTE FOR BROUGHTON FOR GOVERNOR

We believe that J. M. Broughton is the logical candidate for Western North Carolina, and especially Haywood County, to support for Governor.

Mr. Broughton has stated, both privately and publicly, that, if elected, he will see that the West shares equally with other sections of the State.

He is especially interested in the development of the Great Smoky Mountains National Park . . . better roads in rural sections . . . better farming . . . and better livestock.

He favors: Retirement plan for teachers; taking sales tax off of food for home consumption.

We heartily commend him to the voters of Haywood County.
