COTTON

A total of 24,595,000 acres in the United States was planted to cotton and in cultivation at the end of June, according to a late report on the size of this year's crop.

Soco Gap Dance Team To Take Part In 13th Annual Mountain Dance Festival

Coming from the pleasant coves and valleys of Western North Carolina, several hundred ballad singers, fiddlers, guitarists, banjo players, clog dancers, yodelers, and square dancers will assemble at McCormick Field in Asheville August 8th, 9th, and 10th to present the 13th annual Mountain Dance and Music Festival.
 Under the glare of field light, the three evening performances will feature competition among 16 mountain square dance teams, composed of eight couples and accompanied by their individual band of mountain string musicians. Various dance aggregations include the local Soco Gap Dance Team which appeared before the King and Queen of England at the White House and dance aggregations who have appeared in national folk festivals in Washington and other cities of the United States.
 Many of the old-time fiddlers and ballad singers will render songs of the highlands which have been features of highland life since before the Revolutionary War.

Applications Available For Civil Service Jobs

The United States Civil Service commission reports that due to the fact that an insufficient number of applications have been received in the open competitive examination for the position of classified labor, highway construction and maintenance, for filling vacancies in the Public Roads administration that other applications will be received until August 15th.

Full information and blanks can be obtained from the secretary at the Waynesville post office. The usual entrance salary begins at 30 to 50 cents per hour.

Waynesville Boy Was On America For Test Voyage

"She is really a sweet ship," said Marcus McCracken, while discussing the America, the largest passenger ship ever built in the United States, during his brief vacation here with his parents, from Newport News, where he is employed at the Newport News Drydock and Shipbuilding Company, where the America was built. He worked on the ship for sometime.

Mr. McCracken was aboard the America when she made her trial run up the coast to Maine. The ship stopped at Boston to have the hull painted. The ship was put through the hardest kind of test. "For five hours we went full speed ahead, and then backwards just as hard. While going full speed, the rudder would be jerked suddenly to test it and all kindred parts," he said.

The heat in the ship yards has been terrific, he pointed out. The men were given salt tablets to help them combat the heat.
 The America was given quite a welcome Monday noon, when she docked in New York on her first maiden voyage.

If you work for a living you're in business.

Four Civil Service Announced As

Four civil service have been announced as available at the post office.

Details and applications are available at the post office.

DEFENSE
 The vast U. S. defense may be at least a part to the problem of the Western Hemisphere copper, and other minerals formerly sold to Europe.
