\$1.50 In Advance In Haywood And Jackson Counties

County Has 2 Draft Boards, About 5,000 to Register On 16th

County Divided Into Two Districts, Boards, Physicians, And Attorneys Named

The population of Haywood County there have been two draft boards set up to pass on the registration take place next Wednesday on a nation-wide basis to be held in compliance with the recently passed conscription

Tom Stringfield, T. L. Green, Grayden Ferguson, with Dr. Lancaster, as examining physician, R. E. Sentelle, as attorney, have been named as the board for district number one. The district is composed of the following townships: Waynes-Crabtree, Iron Duff, White Pine Creek, Cataloochee, Ivy and Jonathan Creek.

The draft board for the Canton district is in the second district composed of J. T. Bailey, McClure, Will Mitchell, and F. Pate, as physician and Clark as attorney. This district includes the following townships: Beavertown, Clyde, East Fenton, and Cecil.

There are about 5,000 registrars already in the county, who will be regular registrars with regular polling places used for registration centers.

Registrars will meet here at the high school grounds just back of the athletic field. It has a main auditorium sixty by twenty feet, in the shape of a Maltese cross. The two rooms on each side will be used for kitchen and reading room respectively.

The main auditorium will serve for banquets and other social occasions. There is also provision for shuffle boards, tennis tables, and other games. It has also been equipped with a moving picture machine, radio, electric phonograph, and other types of amusements.

The kitchen has a gas range, donated by the Haywood Gas Appliance Company, a kerosene range, donated by the Florence Stove Company, and a large wooden stove loaned by the advisor of the chapter. Other equipments in the kitchen will be found in modern arrangements.

The reading room is equipped with many of the current magazines, books, and such equipment as is usually found in a library of this type. It will also house a museum which will be built up as time goes on.

All activities of the chapter will be carried on in the chapter house, other than classes in vocational agriculture which will be held as usual in the regular classroom in the main building of the high school.

The home economics department of the high school has co-operated in the decoration of the rooms and the building will be used jointly by the departments as well as the whole student body, and the committee.

S. H. Bushnell Reported Improved Late Last Night

S. H. Bushnell, secretary of the Haywood Home Building and Loan Association, who was taken ill several days ago, was reported last night to be improving. Mr. Bushnell is confined to his bed at his home on Walnut street.

Angus Cattle Of Rose And Abel Win First Places At State Fair

Haywood cattle took three first places, three seconds and five third places in keen competition at the State Fair, which opened on Tuesday of this week.

Joe Rose captured two first places with his Angus cattle, while Albert Abel took first place on his yearling Angus bull. Rose was given first on his 2½-year-old Angus bull and his yearling heifers. Rose also got second place for his 2-year-old Angus heifer.

In the Angus class, Roy Robinson got third place in the old bull division.

The Hereford division, Mrs. Mabel Gill got second place with her bull yearling, while Claud Francis got second place for his 2-year-old heifer.

Plans Complete For Dedication Of F. F. A. House

The newly completed chapter house of the Smoky Mountain National Park chapter Future Farmers of America, NYA project, will be dedicated and formally turned over to the school officials, who in turn will present it to the chapter, on Sunday afternoon, the 13th at 3 o'clock.

Jack Messer will make the dedication address. Frank Davis, member of the county board of commissioners, will talk on "Meeting Community Needs."

The Waynesville high school band will open the program with a half hour concert under the direction of the bandmaster, L. T. New, Jr. The Rev. J. G. Huggin, Jr., will give the invocation.

George Suggs, NYA district representative, will present the building, which will be accepted by M. H. Bowles, supervisor of the Waynesville district school. Sam Arrington, past president of the Smoky Mountains National group, will accept the building on behalf of the chapter, from Mr. Bowles.

Following the program, a social period will be observed and the visitors will be shown over the building.

The chapter house is located on the high school grounds just back of the athletic field. It has a main auditorium sixty by twenty feet, in the shape of a Maltese cross. The two rooms on each side will be used for kitchen and reading room respectively.

The main auditorium will serve for banquets and other social occasions. There is also provision for shuffle boards, tennis tables, and other games. It has also been equipped with a moving picture machine, radio, electric phonograph, and other types of amusements.

The kitchen has a gas range, donated by the Haywood Gas Appliance Company, a kerosene range, donated by the Florence Stove Company, and a large wooden stove loaned by the advisor of the chapter. Other equipments in the kitchen will be found in modern arrangements.

The reading room is equipped with many of the current magazines, books, and such equipment as is usually found in a library of this type. It will also house a museum which will be built up as time goes on.

All activities of the chapter will be carried on in the chapter house, other than classes in vocational agriculture which will be held as usual in the regular classroom in the main building of the high school.

The home economics department of the high school has co-operated in the decoration of the rooms and the building will be used jointly by the departments as well as the whole student body, and the committee.

Maple Grove Church Will Be Dedicated Sunday

This \$8,200 modern brick church, all paid for, will be dedicated Sunday at the eleven o'clock service. Dr. Hutchins and Dr. Garber will be the principal speakers. The dedicatory and home-coming services have been combined for a full day's program. Photo by Sherrill's Studio.

\$8,200 Modern Church, All Paid For, Will Be Dedicated Sunday

Democrats Will Open Headquarters Here On Monday

Plans Completed For Holding Rallies Throughout The County Soon

Democratic headquarters will be opened Monday on the third floor of the First National Bank building here, Clifford E. Brown, of Clyde, chairman of the Democratic executive committee of Haywood County, announced Tuesday. The full committee held a meeting recently and worked out plans for one of the most active campaigns in the history of the county.

Rallies will be held in the following centers: Canton, Bethel, Cruso, Cecil, Hazelwood, Crabtree, Fines Creek, Ivy Hill, and Waynesville. The Fines Creek rally will be held October 19th with Dan Tompkins, of Sylva, as the speaker. The Bethel rally will be held October 25th at 7:30 at the Bethel high school. The speakers for this rally will be Sam Cathey, R. E. Sentelle, and Walter Crawford.

The windup of the state campaign will be at Waynesville November 2 when a large crowd is expected at the court house to hear J. M. Broughton, Democratic gubernatorial candidate, and Senator Bailey speak.

Mrs. Oral Yates, vice chairman of the county executive committee, has been put in charge of the woman's organization of Haywood County.

Boosters To Hear Dr. Bird Tonight

Hazelwood Civic Club Will Entertain Teachers Of Town Tonight At Supper

The Hazelwood Booster's Club will meet in the Town Hall on Thursday evening October 10, for their monthly supper meeting with the teachers of the Hazelwood elementary school as honor guests.

Dean W. E. Bird, of Western Carolina Teachers College, Cullowhee, will be the speaker of the evening. He will speak on some phase of National Defense.

The program committee is C. N. Allen, M. H. Bowles and Lawrence Leatherwood.

Laundry Installs 3 New Machines

The Waynesville Laundry has just installed three new machines to their plant, enabling them to enlarge their scope of service, by blocking hats, cleaning rugs and a new special dryer for quick drying of washed dresses.

The dryer takes all the moisture out of a dress in 30 seconds, according to Mr. Killian, owner.

Old Building Burned In 1937; New Plant Has Five Sunday School Rooms.

Dedicatory services combined with home-coming, will mark a big day in the history of Maple Grove Methodist church next Sunday.

Beginning at eleven o'clock, the services under the direction of the pastor, Rev. C. O. Newell, will continue until the noon hour at which time a basket dinner will be served. Speakers for the morning program are Dr. W. L. Hutchins, presiding elder of the Waynesville district, and Dr. Paul N. Garber, of Duke University.

Beginning at 2:30 in the afternoon, Rev. J. D. Jessup, former pastor of the church will speak.

The modern building, costing \$8,200, was started during the pastorate of the Rev. Mr. Jessup. The building burning in March, 1935. Work of rebuilding was started at once, and all but \$1,500 of the total cost was raised by the 137 members and friends. During construction, 37 joined the church.

The building is entirely paid for. There is a thriving Sunday school; with Hardy Linder, superintendent. Miss Hilda Moody is president of the active Epworth League, and Mrs. Edward Glavish is president of the successful woman's society of Christian Service. It was this organization that was most active in raising money to pay for the church.

The first Methodist class of the present Maple Grove church was organized in the old Turpin school about 1901. The school had a raised platform for church services.

The Baptist congregation also used the same building.

Rev. Jim Queen was pastor from 1907 to 1910, and he was instrumental in starting the church building which was known as Turpin's Chapel.

J. L. Queen gave the land and the greater part of the money for this building, which cost about \$600.

The church was dedicated by the late Bishop James Atkins, under the pastorate of Rev. C. L. McCain in 1911.

A large attendance is expected for the dedication and home-coming Sunday.

Rev. Mr. Newell has been pastor of the church for the past two years. He formerly served the Fines Creek church. During his two years at Maple Grove, 19 members have been added.

The present church has five Sunday school rooms, besides the auditorium which seats 250. A modern hot air heating plant has also been installed.

Seawell Heard At Rotary Club

Thomas M. Seawell made a forceful presentation of one's obligation to youth, at Rotary here Friday. The program was sponsored by the boys' work committee, with Ben Colkitt, chairman.

Taking actual cases from life, and telling vividly of their outcome, the speaker cleverly pointed out the community's responsibilities, together with those of parents and business men towards the young people.

Mr. Seawell illustrated his talk, and showed where every child deserves and has a right to demand of society, that all the pitfalls of life be pointed out to them.

W. H. F. Millar was welcomed into the club as a new member.

Pastor

State To Build Bridge On No. 284 As Flood Measure

Engineers of the Highway and Public Works Commission have decided to build a bridge across the former fill at the R. E. Sentelle place on Highway No. 284 near Bethel instead of replacing the fill which was destroyed by the last flood.

The fill, it was pointed out, acted as a dam and impounded water in the valley, and when it broke, the water rose quickly in the valley, doing thousands of dollars in damage all the way down to Canton and Clyde, it was pointed out.

The bridge will be about 100 feet long, and will cost approximately \$15,000 it was estimated.

Petitions are out in the Bethel section, protesting the completion of the new bridge at Ark Park, at the forks of the East and West prongs of Pigeon River.

Residents of the community point out that the approaches to the bridge will act as a dam during a full stream, and will cause water to back up over farm lands in the valley.

The bridge was under construction and was damaged during the recent floods.

11-Year-Old Law Found Prohibiting Carnivals From Showing In County

As an aftermath of the recent carnival, which aroused the citizens of the community to sponsor a movement to prohibit such forms of amusement in the future, legal authorities recalled that there was an eleven-year-old law which had long been overlooked.

The county commissioners were informed of the old law prior to their regular meeting on Monday, at which time a petition signed by several hundred citizens of the county was presented to them, requesting that some legislation be provided in the future.

The county commissioners went on record as being opposed to showing of carnivals and certain types of amusements, and instructed the officers to strictly enforce the law that was passed some eleven years ago.

The law is as follows: AN ACT TO PROHIBIT THE EXHIBITION OF CARNIVALS AND TENT SHOWS IN THE

Plans Made to Bring Natural Gas to Haywood Within A Year

Reputed Mad Dog Killed Lesterday By N. Caldwell

Hound Killed On Miller Street; Another Dog Is Locked Up For Observation

A hound dog, reputed to have been mad, was shot and killed here around 10:30 yesterday morning, by Norman Caldwell, of the city police.

The dog was first noticed by J. E. Massie, who saw the alarming actions of the dog near his parked car on Miller street. He called Officer Caldwell at once.

Mr. Caldwell stated when he arrived the dog was "going in circles," and suddenly grabbed at the fender of a car. Convinced of the condition of the dog, he chased it further down Miller street away from the people and traffic so he could shoot. The first shot caught the dog in the neck, and he ran toward Martin Electric Co. The second shot was fatal.

In the meantime the reputed mad dog made a plunge for the Spaniel owned by Phillip Queen, though it is claimed that he did not bite the dog. However the Spaniel was locked up at once as a precautionary measure.

Mr. Caldwell stated last night that he had not been able to find the owner of the hound dog. He was of medium size, with a leather collar with copper metal plate, but no name or marked tag.

Two Children Hurt When Car Leaves Highway In Clyde

Lucille Gillett, 11-year-old daughter of Mr. and Mrs. Charlie Gillett, of Clyde, who was the victim of an automobile accident on Sunday afternoon, and is a patient in the Haywood County Hospital, was reported to be fairly comfortable last night.

The Gillett child and a friend, Betty Sue Turner, 10, daughter of Mrs. Milley Turner, also of Clyde, were playing in the yard of the former's home, when a car driven by Irene Graham, 15-year-old daughter of W. E. Graham, of Clyde, left the street and ran into the yard, knocking down the children.

The Turner child received only slight lacerations about the legs and was given emergency treatment and taken to her home, but Lucille Gillett suffered a fractured pelvis.

Irene Graham was accompanied by her father and was driving a 2 door 1933 Chevrolet sedan. She turned off U. S. Highway 19-23 into Mulberry street in front of the Sinclair filling station and failed to straighten out and ran into the yard where the children were playing, it was alleged.

The case was scheduled to be heard before the mayor's court in Clyde this week, but had not as yet been given a hearing it was learned last night from Patrolman O. R. Roberts, who was assisted by Corporal E. W. Jones, investigated the accident.

Creek Through Hazelwood Being Dredged Deeper

Camp Branch, from where is enters Richland Creek to Highway Nos. 19-23 is being dredged, as a safeguard against floods, through Hazelwood.

The Unagusta Manufacturing Co., The A. C. Lawrence Leather Co., and the Town of Hazelwood are co-operating in this project.

Work began at Richland Creek and is now completed to the railroad trestle.

Ferguson and Sparks, of Sylva, is doing the work.

Smithfield Pastor To Fill Baptist Pulpit

The supply committee of the First Baptist church have announced that Rev. C. L. Gillespie, of Smithfield, will fill the pulpit here Sunday at the morning service.

At a joint meeting of the deacons and finance committee of the church Monday night, the pulpit committee gave a report of their work of getting a pastor.

The supply committee is headed by J. R. Morgan, while the pulpit committee is headed by J. C. Patrick.

Engineering Work Is Completed For Bringing Line To Canton From Knoxville

The Tennessee Gas and Transmission Co., will have natural gas piped into Haywood County within a year, according to W. H. F. Millar, attorney for the major stock holder of the twenty million dollar project.

The engineering work has been completed for laying a pipeline from the Texas-Louisiana oil fields, via Chattanooga and Knoxville, across the mountain to Canton, with spur lines running from Canton to Waynesville and Sylva and one to Asheville.

According to Mr. Millar, who recently built a home and has moved here, the project has been under consideration for 15 years, and is not a "newly hatched idea."

Petitions have been filed and hearings held with the Federal Power Commission, in Washington, asking for a certificate of Convenience and Necessity, he said. "Within a month, we feel the commission will grant the certificates," Mr. Millar concluded.

The pipeline company will sell only to large industries, and to municipalities or firms who will retail the gas. The main purpose in coming into this section is to supply industry, he pointed out.

Mr. Millar said that Champion Paper and Fibre Company would use between 8 and ten million cubic feet a day. The American Enka Corporation will be another consumer, he said, as would industries in Haywood and Jackson counties.

The pipeline would have a capacity of 150 million cubic feet a day, under the present plans.

Curtis B. Dall, former son-in-law of President and Mrs. Roosevelt, is president of the firm, while John E. Buchingham, former treasurer of the state of Kentucky, is treasurer.

Mr. Dall was here three weeks ago and went over the route which engineers have surveyed for the pipeline from Knoxville to Canton. He was impressed with the section, and told Mr. Millar he was coming here and build a summer home. Mr. Dall is also president of a large bonding company on Wall Street in New York, operating under his name.

Mr. Millar pointed out that pipeline financing was the easiest in the financial world, and that already the firm has had offerings from financiers.

The gas will be sold at a price that will be within reach for heating entire homes, Mr. Millar said. The price will be cheaper than manufactured gas.

The engineering firm of Brokaw, Dixon and McKee, of New York, have already completed the surveys and have maps of the proposed line of the pipeline route. They are outstanding natural gas engineers, and have had some of the largest such jobs in the country.

Pumping stations will be built along the line, and it was said that ten miles of line a day could be laid. The pipe is put several feet underground, but no grades are necessary.

Creek Through Hazelwood Being Dredged Deeper
