PROCLAMATION

The Nation is appealing to all its citizens for their active assistance for the first time since President Roosevelt's declaration of a full national emergency May 27.

The Nation needs aluminum for planes and other vital items in its defense program more rapidly than existing facilities can produce it. Additional facilities are being constructed as quickly

In the meantime, the people of the Nation can help by donating all used aluminum that can be spared from their households without being replaced. No individual or group or corporation will make any profit out of this transaction.

All aluminum will be used exclusively for national defense. In these times of national emergency conservation of all vital national resources needed for defense purpose is essential. So I hereby declare that July 24 and 25 be set aside in this community for the purpose of collecting all used aluminum and I

ask the wholehearted response of the citizens in this first general appeal from our Government. J. H. WAY, JR. Mayor of Waynesville.
