### A Week Of The War

to prevent a break-through and mage to enemy resources as pos-

The value of telephone service ncreases as more telephone subscribers are added. During the past two years alone, a net gain of almost 290,000 telephones was made in the area served by Southern Bell. • To make possible this unprece-dented increase in telephones has required an expenditure of nearly one hundred million dollars and a net increase of more than 6,000 new employes, making a total of 28,-000 men and women now employed by Southern Bell. Today, as never before in history, the telephone is indispensable to business and industry, a source of ever present comfort, convenience and security to the home, and vital to our national welfare in war and peace. 6 The telephone has ecome a part of our modern way of life—indispensable—

SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY

President Roosevelt told his press sible while we build up overwhelming superiority president Roosevelt told his press iference the American people of realize they are faced with st realize they are faced with world-encircling war. He said world-encircling war, chylonely first U. S. objective obviously agency heads ordering them to first U. S. hreak-through and "determine those employees who to prevent a same time cause as much may be prompty released" for work in the agencies most directly in-

volved in the war. Congress completed action on a \$500,000,000 appropriation for aid to China, and the President signed it. The State Department announced arrangements to co-ordinate and simplify economic warfare methods of the U.S. and Britain. The Agriculture Department said Lend-Lease agricultural commodities delivered to the British Government totaled more than 3,300,000,000 pounds up to January 1, 1942-enough to fill 69,000 freight cars and make up a train 575 miles long.

RATIONING

Price Administrator Henderson announced nation-wide rationing of recapped and retreaded tires will begin February 19. The rationing will be carried out through the same machinery now employed to ration new tires and tubes. Mr. Henderson said it is probable there will be no crude rubber available

He said sugar rationing will be put in effect as soon as War Ration | Secretary Stimson. The President Book No. 1 is printed and distributed. The books contain 28 stamps and agencies to follow uniform lars in cash appropriations and war goods in 1941, and to win deand each stamp will entitle the holder to a specific amount-probably three-quarters of a pound per person-each week. When they are issued an appropriate number of stamps will be removed for any hoarded sugar in the family—as shown by a certified statement. False reports of sugar supplies will carry penalties up to \$10,000 fine or 10 years imprisonment.

CIVILIAN DEFENSE

OCD will be completely reorgan- announced. President Roosevelt ized to "gear it for action." He asked Congress for almost four said "each person must have a billion dollars in cash and conpractice tests to see whether they can function."

President Roosevelt asked Conplemental appropriation for the tract for 36 Liberty freighters, ment of Commerce estimated prosure sufficient supplies for the air army. The War Department and Twenty-three American yachts, duction for military purposes will corps.

Convoy on the Pacific

This remarkable photo released by the Navy Department, shows soldiers, sailors and civilian passengers relaxing on the deck of one of the ships that recently crossed the Pacific in convoy. The wearing of life belts at all times was compulsory. The convoy's ports of embarkation and debarkation were not disclosed. It reached its destination safely.

## Pet Pasteurized Milk Contains MORE BUTTERFAT Than the Law Requires

UNCLE SAM AND THE N. C. BOARD OF HEALTH HAVE SET 31/4 % BUT-TERFAT AS THE MINIMUM

#### Pet Pasteurized Milk Is 4% Butterfat

Uncle Sam believes that milk which contains 31/4 percent butterfat is good enough for his army, navy, marines and even patients in his hospitals. The North Carolina Board of Health feels the same percentage of butterfat

makes a good quality milk. Characteristic of PET PRODUCTS, they are even better than the standard set by law, as EVERY BOTTLE OF PET PASTEURIZED MILK CONTAINS

4% BUTTERFAT. Pet Pasteurized milk is standardized at 4% butterfat, and has the same

amount of butterfat 365 days in the year, BECAUSE EVERY BOTTLE IS LABORATORY CONTROLLED.

#### **Laboratory Controlled**

Every bottle of Pet Pasteurized Milk is Laboratory controlled for Purity, Quality and Freshness.

Our milk is produced, pasteurized and bottled under supervision of the United States Public Health Service and the State Health Department.

When we say Pet Pasteurized Milk is Safe Milk, we know what we are saying, because harmful bacteria that might be present cannot live in milk that has been heated to 143 degrees and kept there for 30 minutes.

KNOW THE MILK YOU DRINK.

#### Invisible Cream--

The visible cream of raw milk of the same butterfat content is slightly longer than on pasteurized milk. The butterfat is still in the milk, although not visible to the naked eye. The food content of the milk is still there, PLUS the satisfaction of knowing that Pasteurized Milk Is Safe Milk.
