Private Rufus Ratcliff, who is stationed at a camp in Louisiana, is spending several days with his parents in the Ratcliff Cove.

HOUSEHOLD HINT

Never beat a carpet or shake a small rug. Such treatment may snap the fibers and loosen the foundation.

Towers of Truth

Chinese, Finnish, Tagalog, Dutch, Spanish—programs in more than a dozen tongues go out from the towers of General Electric stations WGEA and WGEO, Schenectady, and KGEI, San Francisco.

1. They provide authentic war information for news-starved people around the globe, entertainment for U.S. forces abroad. These G-E short-wave stations . . .

2. . . have special antennas "pointed" at Australia, South America, China, Europe—making reception there almost as strong as from local stations.

3. They provided the only U.S. programs that reached Bataan. People in conquered lands risk their lives to listen. Smuggled letters say they bring hope of release.

4. Some announcers are regular G-E production employees, working on war work. They tell people in their native lands that America is determined on victory.

General Electric believes that its first duty as a good citizen is to be a good soldier.
