Problems Of Boys Laid To Adults

Problems of the youth of today, was the topic which James Hudson, owner of Laughing Owl Camp for boys, discussed at Rotary here last Friday.

Mr. Hudson is from Miami and pointed out that boys pick up profanity from adults, and that most of their short-comings can be traced direct to some adult, which they choose to try to imitate.

He stressed the fact that the world cannot expect to have better boys, until their fathers and others do better before them.

Labor Day -- Sept. 7

—a day to honor the laboring man

Building a nation was not accomplished by a piece of paper, a contract, a constitution, a speech-maker.

Quite the opposite. America first knew prosperity because honest enterprise, desire for freedom and hard work were the impelling forces that brought this land from a desolate wasteland to the greatest country on the face of the globe.

One of the traits of the pioneers was thrift—today it is easy and profitable to save through Building and Loan.

Noted Lecturer To Appear At Methodist Church

An illustrated lecture will be presented at the Methodist church, Sunday evening, at 8:00 o'clock by Rev. John Everington. The subject of the lecture will be "A Pilgrimage to the Sea of Galilee," it has been announced by the pastor, Rev. J. Clay Madison.

Mr. Everington is a native of England, but has been living in America for many years, now making his home in Florida. He has traveled extensively over Europe, North Africa and Western Asia. He has filmed and tinted his own pictures and has first hand knowledge of the subjects which he discusses.

He appeared at the First Methodist church in a week-day service earlier in the summer, speaking on the "Cathedrals and Shrines of Old England." His pictures

were so interesting and his message was so much appreciated that he was then engaged for the coming presentation. He has been on the program at Lake Junaluska twice; he is on the program at Montreat this week, and has appeared in various large churches and on assembly programs throughout our nation.

The lecture Sunday evening, as the title suggests, has to do with the country about the Sea of Galilee. The little town in which Jesus spent his boyhood, fishermen of Galilee today, and the countryside where the Master carried out most of His ministry will be presented in picture form. This lecture should be interesting not only because of the information it gives us concerning the setting of the Master, but also because it is highly worshipful in nature.

No admission will be charged, but a free will offering will be taken for the speaker.

While we live to learn we ought to learn to live.
