

Nephew Of Mrs. Noble Garrett Is Accidentally Killed

(Continued from page 1)

Mrs. Frank Moody, of Macon county, former residents of Haywood.

Young Higdon was crushed by rock when the tunnel caved in and he died 30 minutes later while being taken to a hospital.

Young Higdon was crushed by paratory education at the Georgia Military Academy and the Franklin high school. He had been a student at the North Carolina University for the past two years. Last spring he was elected vice president of the rising junior class. He was a member of Pi Kappa Alpha fraternity. He was planning to return to Chapel Hill later in the month.

He had been working for the TVA at Farmer for the past two and a half months. He formerly helped his father in the Franklin Hardware Company, of which the elder Mr. Higdon is co-owner.

TURKEYS

The number of turkeys raised this year on American farms will be 33,786,000, an increase of 1 per cent over last year, but 1 per cent less than the record crop of 1940.

WANT ADS

A LARGE Waynesville department store has opening for salesman, with experience in selling men's clothing, shoes, etc. Permanent position. Write Box 561. Sept. 3.

Launch Three Destroyers in 35 Minutes

These three trim destroyers, the Navy's newest triple threat to Axis subs, slid down the ways at the Federal Shipbuilding and Drydock Company yards in Kearny, N. J., within thirty-five minutes. The new ships and their sponsors are from left to right: *Davison* (618) sponsored by Mrs. Gregory C. Davison of N. Y.; *Edwards* (619) sponsored by Mrs. Edward Brayton of Fall River, Mass.; *Sawley* (465) sponsored by Mrs. Helen O'Rear Scruggs of Frankfort, Ky. (Central Press)

A Week Of The War

General MacArthur's Australian headquarters reported in a special communique August 31 that Japanese invasion troops have suffered a disastrous defeat in the Milne Bay area of New Guinea. A force of Australian shock troops had been secretly concentrated along the Bay in anticipation of the Japanese landing August 26, the report said, and as a result the Japanese lost all of an "enormous quantity" of heavy material they landed, including tanks, and except for a few troops evacuated by an enemy cruiser and eight destroyers, the enemy land force was annihilated.

The navy announced that marines holding six islands in the southeastern Solomons had killed or captured all Japanese troops attempting to retake the islands. The navy reported August 30 that seven enemy planes were shot down when they attempted to raid the airfield facilities which the marines had captured on Guadalcanal, bringing the total of enemy planes shot down in the Solomons fighting to 78. The navy also announced the marines, with navy support, raided the Japanese base on Makin Island in the Gilberts, killing all but 2 of an estimated 330 enemy garrison. U. S. losses were less than 1 to 10 of Japanese.

In the European theatre, U. S. flying fortresses bombed the air-drome of Wevelghem, near Courtrai in Belgium, in the eighth straight operation without loss. In other precision bombing raids, the fortresses attacked the Rotterdam shipyards and an airplane factory at Mesulte in Northern France. Lt. Gen. Joseph W. Stilwell announced August 31 in Chungking, China, that U. S. army planes based in China have made heavy and successful attacks on Myitkyna and Lashio, the two large Japanese bases in Northern Burma. The navy announced the sinking of five more United Nations merchant ships by enemy submarines in the Atlantic.

Joseph C. Grew, former ambassador to Japan, newly returned from Tokyo, said in a radio address the Japanese will fight "with all the force and power at their command... until they are utterly crushed." Mr. Grew stated "we are up against a powerful fighting machine, a people whose morale cannot and will not be broken even by successive defeats, who will certainly not be broken by economic hardships, a people who individually and collectively will gladly sacrifice their lives for their emperor and their nation, and can be brought to earth only by complete defeat in battle."

Controlling the Cost of Living

President Roosevelt said he would announce his new anti-inflation program in a nation-wide address the evening of Labor Day, and would send a message to Congress earlier the same day. He told his press conference that forthcoming steps to control the cost of living will include stabilization of farm prices as well as wages, because neither could be stabilized without the other. He said wage stabilization would be flexible and would not amount to flat freezing of wages and salaries. The President also said the government is considering one meatless day a week as a plan to be used largely as a means of saving oceanic shipping space for the total war effort. He said under the plan American meat could be shipped to nations in need, and this would make 30 to 40 allied ships available for hauling war necessities to world-wide theatres of United Nations war activities.

Stabilization of Farm Prices

The office of price administration announced it is planning a price ceiling for live hogs and similar action is contemplated soon for cattle prices. The ceiling would be worked out in con-

junction with representatives of livestock producers. The office said "vigorous steps" are being taken to enforce quality grading provisions of its beef regulations to prevent upgrading as an evasion of price levels. The agriculture department reported a 9-point advance in farm prices from July 15 to August 15, raising the general level to 163 percent of the pre-World War I figure, 32 points higher than a year ago.

Rationing

The OPA ordered reexamination by local boards of all supplemental gasoline ration books, particularly C books for motorists in 14 designated occupations and S books for operators of commercial vehicles. New books will be issued for the amount the operator is fairly entitled to, if present coupons are found in excess, and deliberate violations of regulations will be prosecuted, the office said. The OPA announced 35,500 new passenger cars will be made available for rationing in September with 13,250 in August, but all unused quotas were recalled and no carryovers will be permitted in the future. The quota of 90,000 bicycles for September is the same as for August.

All rented standard model typewriters manufactured since January 1, 1935, were ordered returned to rental agencies by September to make them available for purchase and use by the armed forces and government departments. Persons eligible to purchase machines under existing OPA regulations are not affected.

Transportation

The office of defense transportation issued an order effective immediately governing the operation of at least 50,000 automobiles used as taxicabs. The order (1) banned use of taxicabs for "social or recreational purpose of the driver or operators"; (2) established a national taxicab speed limit of 40 miles per hour "or any speed above that prescribed by competent public authority"; (3) prohibited use of taxis for making "commercial deliveries of property"; (4) limited to 10 miles the distance a taxi may be operated beyond the corporate limits of the municipality in which the trip originates; (5) banned seeking cab passengers by "cruising"; (6) limited to 25 miles the distance which may be traveled on any one trip; (7) prohibited vehicles not marked distinctly as taxicabs from being operated as such.

The Armed Forces

The war department raised from 45 to 50 the maximum age at which men "who have character, skills or aptitudes which make their enlistment desirable and who are otherwise qualified" and who have draft board permission may enlist in the army. They will be assigned to overhead units or installations where they will release younger men for general military service, and if fit, they will be used for combat duty, War Secretary Stimson said.

Marine corps enlisted men, as well as navy enlistees, may now apply for flight training to become naval aviation glider pilots, who act as co-pilots for large transport gliders. During the week, the 45,000-ton battleship Iowa—heaviest vessel ever launched in the U. S.—the aircraft carrier Independence, the cruiser Boston, and two destroyers, the *Glenon* and *Jeffers*, were launched.

The Red Cross and the navy jointly announced a new rescue project under which buoyant waterproof bags containing emergency food, water and medical supplies, cigarettes, etc., will be dropped by navy patrol blimps to seamen awaiting rescue, before they are actually picked up by rescue vessels.

Strategic Materials War Production Chairman Nel-

son said 2,000,000 cars from automobile graveyards have been converted into 400,000 tons of steel scrap a month during the last four months, but the steel industry is now consuming approximately 4,800,000 tons of scrap metal a month, about four times as much as it took in 1938. The office of the petroleum coordinator reported New Englanders and other east coast consumers will obtain only 75 percent of their fuel oil requirements under normal weather conditions this winter.

DEATHS

MRS. FLORENCE RUSSELL

Last rites were conducted at the Francis Cove Baptist Church on Friday afternoon at 2 o'clock for Mrs. Florence Russell, 67, who died at the home of her son Perry Russell, near Canton, on Wednesday afternoon at 1:30 o'clock. Rev. Cay Allen officiated. Burial was in Greenhill cemetery. Special music was furnished by the Wesley Methodist quartette.

Serving as pallbearers were: Marshall Raby, Marshall Beddingfield, Willis Young, Albert Beddingfield, Andy Patton, and Tom Russell.

Mrs. Russell is the widow of the late W. L. Russell, who died a number of years ago. She was a devoted mother and was well known for her kindness to others.

Surviving are: five daughters, Mrs. C. C. Garren, of Brevard, Mrs. Paul Massie, of Sewill, N. J.; Mrs. Jack Patton, of Canton; Mrs. Ellis Forga, of Hazelwood, and Miss Elsie Russell, of Canton; two sons, Perry, of Canton, and James Rufus, of Waynesville, route 1; two sisters, Mrs. Will Kerley, of Candler, and Mrs. James Trull, of Canton; 31 grandchildren and 10 great grandchildren.

The Massie Funeral Home was in charge of the arrangements.

When you put a handbag away for awhile, stuff crumpled tissue paper inside to help hold the bag in shape. Wrap the bag in soft unnaped cotton cloth such as old sheeting. If you put the bag away for a season it's a good idea to wrap it in its own box.

Girl Preacher at Ten

At the age of ten, Hazel Leighton of Columbus, Ga., is a preacher of two years experience. Hazel received her call to preach, "one night while I was lying in bed," she says, "God told me that I should go out and preach the truth to all men." The young preacher's grandfather, Rev. J. M. Leighton, accompanies her on her rounds. He has been a Baptist minister for 33 years. (Central Press)

You're Telling Me

By WILLIAM RITT
Central Press Writer

This must have been the coolest summer in years. We can recall having seen a single newspaper photo of a beautiful girl in a bathing suit—frying eggs on a sidewalk.

The Jap navy, having lost most of its plane-bearing ships, seems to have committed hari-kari.

What a boon to the hay fever sufferer if some scientific genius would only discover a means of extracting sugar from ragweed and converting goldenrod into synthetic rubber.

Statistics show that the amount of lipstick used by American women in one year would paint 40,000 barns a bright red. But who cares whether or not a farm is glamorous?

In the office, too, Grandpa Jenkins points out, it is the big gun who does the firing.

COLLEGE DEGREES AT HIGH SCHOOL

The world travels pretty fast these days.

For instance, five Union college students have just gotten their diplomas.

Nothing unusual in that, you say. But these college students began their college careers under the speed-up war-time plan. The diplomats they are getting are from high school.
