

Canneries Called On To Pack More Food In '43 For War Needs

By J. E. BARR
General Manager of The Land O' Sky Mutual Association

The Sky Mutual Association Canners of the United States have been asked by the Department of Agriculture to increase their production in 1943 over that of 1942. Plans are now being made in Washington for 1943 packs of the major canned foods. Due to the shortage of tin it is more than likely that our canneries in Western North Carolina will be unable

to pack any other item except snap beans.

In 1942 snap bean packers of the country put up the largest pack of that product on record to date; however, the Department of Agriculture is asking canners to increase that crop about 15 per cent over 1942 production. That means that at our four canneries in Western North Carolina we will need in the neighborhood of 100,000 bushels of green beans. We have secured sufficient seed to grow about the same acreage we grew in 1942—or in the neighborhood of 800 acres for the four canneries (approximately 200 acres for each cannery). When the seed we have purchased is used up, there will be no more; because seed growers are pro-rating their deliveries on a basis of 85 per cent.

The purpose of this article is to get farmers to thinking of this problem and to get them to planning their crop program so as to include whatever acreage of snap beans they will be able to handle. We are not yet ready to make contracts, because we are waiting to receive the plans of the Department of Agriculture. We are also waiting to find out what kind of a ceiling price they are going to give us on the finished product so that we in turn can adjust our price to the grower. The news we hear now indicates that prices will be higher than they were in 1942, due to the extra expense that is sure to be applied in producing the crop. We also get news that fertilizer may be scarce, therefore, we want to warn you to arrange for your fertilizer early.

As soon as we have all the information from the Federal Department of Agriculture we will give our growers notice through the local papers and will then be ready to write contracts. On account of the shortage of tires and gasoline, we will be unable to cover the territory and make personal visits to the farms of our growers; therefore, we ask that when you are in town get in touch with us and make known to us your desires as to

Local Colored Woman Marries In Chicago

Vallia Peterson, well known local colored woman, was married during the week in Chicago to Noah Pemberton. Her address is 3444 Michigan Ave. Chicago.

Most every family in the United States has a boy or relative or friend in the armed forces of our country. These men are obliged to spend much of their time in the jungles or muddy trenches. They are obliged to face disease and other pests, as well as the enemies' guns. In order for them to live under such conditions, they must have good food; and it is the duty of every patriotic American to do his or her share in producing the necessary food to keep our army in good health and in good fighting trim if we are to win this war; and while there may be a scarcity of help in some communities, we feel certain there are still enough people able to work in Western North Carolina to produce our share of the food that is to go to our armed forces.

This year the government will take what equals 58 per cent of our 1942 production. That means between fifty and sixty carloads of canned foods to be furnished from our four canneries in Western North Carolina. We trust that all of our farmer friends will do everything they can to make this program a success, and we assure you the best prices it will be possible for us to pay under our ceiling price, and we also promise you our full co-operation. Think this over, make your plans early, and let us know what your plans are going to be.

Rev. Mr. Terrell, Missionary To Brazil, Passes

News has been received of the death of the Rev. James Terrell, a native of Haywood county, who has served as a missionary to Brazil for more than forty years.

He was the son of the late Captain and Mrs. William S. Terrell of the Bethel section. Was educated at Vanderbilt University and Emory and Henry. During his early ministry he served as pastor of the Methodist church at Hillsboro, and was then sent as a missionary to Brazil.

His death occurred at Sao Paulo where he was located. He was well known throughout Haywood county where he spent much time during his furlough trips back to the states. His last visit was about five years ago.

Surviving are the widow, the former Miss May Umberger; a daughter, Mrs. Reginald Turner, of Asheville, N. C., and two sons, Charles of Sao Paulo, Brazil, and Walter who is with the intelligence department of the navy at Washington, D. C. Four sisters, Mrs. H. A. Miles of Ramona, Calif., Mrs. R. E. Sentelle and Mrs. J. P. Justice of Bethel and Mrs. J. M. Russell of Canton; and three brothers, Charles S. Terrell, W. T. Terrell, and B. W. Terrell, all of the Bethel section.

Vital to Liberty Conserve its Use

The New Year, 1943, is "the end of the beginning." A greater burden of toil and conflict lies ahead. And while America's sons fight in desert and jungle, telephone communication lines at home will carry an ever-increasing load of calls vital to Victory.

Telephone materials are still going to battle in the form of guns and shells. So, to get the most out of our present equipment, we will continue to need your help in keeping long distance lines clear of all but necessary calls. And remember, the greater the distance you talk, the greater the chance of your call getting in the way of important war calls.

We are most grateful for the patriotic response during 1942, to our requests for voluntary reduction of unnecessary long distance calls. It helped us provide the services so badly needed in those critical times.

For the "duration," we can continue to best serve the telephone needs of all by serving our country first.

WHAT HELPS NORTH CAROLINA HELPS you!

COLONEL EDGAR H. BAIN, State Director

Every legitimate industry that contributes to North Carolina's good is important to you, too.

The legal beer industry gives jobs to 13,000 North Carolinians. It pays them salaries totalling more than \$12,000,000 a year. Its steadily growing taxes—\$2,800,000 to the state in 1942—are a tremendous aid in advancing many public services.

The loss of these taxes would mean that you would have to dig still deeper into your pocket to maintain these services.

To protect such contributions to our state's welfare, the brewing industry carries on a self-regulation program designed to assure wholesome conditions wherever beer is sold. You know this program as the "Clean Up or Close Up" campaign.

As a part of this work, our Committee has cooperated with your law enforcement officers to eliminate 241 undesirable beer outlets.

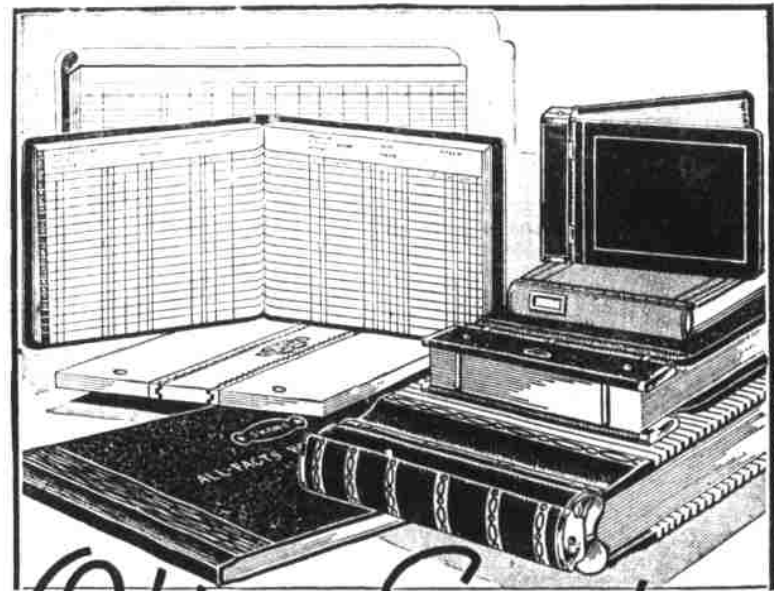

Your help is asked. You give it when you patronize only those dealers who are law-abiding, and when you report any law violations to the authorities, or to this Committee.
