

Reduction Ordered In Deliveries, Both Wholesale and Retail

Certain restrictions on deliveries of a number of commodities will become effective Monday, October 12th, under a general order of the Office of Defense Transportation, No. 17, amendment No. 3B, it was announced here this week.

The program is designed to conserve motor equipment and manpower, it was pointed out. In January, 1942, ODT ask firms making deliveries to reduce deliveries on a voluntary basis. The present order makes it mandatory, and all firms violating the order will be subject to penalties subscribed in the order.

The general schedules covered in the order include deliveries on the following basis:

Commodities	Maximum Number wholesale deliveries weekly	Maximum Number retail deliveries weekly
Fresh or frozen meat	5	3
fish or poultry	5	3
bread and bakery products	6	3
alcoholic beverages	1	1
non-alcoholic beverages	2	1
milk and dairy products	6	4
ice cream	4	1
magazines and periodicals	4	1
laundry, dry cleaning	5	2
for repairs	7	7
for flowers	5	1
any commodity for which no maximum number of deliveries is specified above	2	2

A number of firms went on the voluntary reduced deliveries in January, 1942 and shortly thereafter, and will not be affected by this order.

Several other firms serving this area have in the past few months reduced their deliveries.

Among the first to go on the suggested reduced schedule in January, 1942 was Pet Dairy Products Company. R. B. Davenport, plant manager, said that the firm was glad they went on the voluntary basis 22 months ago.

"IN WARTIME"

Just think of all the records kept, How many planes are flown; How many ships go down at sea, In every battle zone.

How many men are overseas; How many bonds are sold; And almost everything that's done is on a list, we're told.

But here are things no list will count The empty arms that ache; The tears that fall from weeping eyes; Nor all the hearts that break.

Pet Dairy Products Company Acted

22 MONTHS AHEAD OF ODT REGULATIONS No. 17-Amdt. 3-B

★ ★ ★ ★ ★

Within a few hours after the Japs hit Pearl Harbor, the officials of this firm resolved and instructed all plant managers that the biggest job for this company was to help win the war.

"Let everything you do be a step towards Victory," was the order.

To this day, that has been followed.

In January, 1942, the Office of Defense Transportation suggested that all deliveries of dairy products be curtailed. This firm realized the importance of conserving trucks, tires, gasoline and manpower, and voluntarily went on the schedule suggested by ODT.

There was no law that made us, except the

keen desire and determination that we were going to put Victory before business.

Now 22 months later ODT makes it an order that deliveries be made in accordance to what they suggested as a voluntary measure back in January, 1942.

This firm is happy that we have been on the schedule all the while, and we feel we have contributed that much towards Victory, in cooperating 100 per cent with our government.

We are not going to wait for an order to be made before we realize our patriotic obligation. We have too many of our employees and friends in service, too much love for America to do that.
