A WAR-TIME MESSAGE

from

GOVERNOR R. GREGG CHERRY

THE NATION'S critical pulpwood shortage presents a special challenge to North Carolina because of our history and our natural resources.

Forests have been a source of revenue and employment to the people of North Carolina from the time of the first permanent white settlement about 1650 until today when pulpwood products are bringing peak war-time prices.

Pulpwood now is a No. 1 war material upon which our military forces in Europe and the Pacific are dependent for victory. North Carolina mills must have 450,000 cords of pulpwood by June 30 to fill their war-time orders.

Before the war North Carolina ranked third in the United States in the value of its forest products cut and sold off farm lands. Over half of this state's farms today are covered with woodlands.

By cutting and selling the pulpwood that grows so abundantly in our state, we will not only be helping to meet the national emergency but will be safeguarding our future prosperity as well.

Pulpwood today can help shorten the war, while tomorrow it can offer jobs to

our returning servicemen and a cash crop for our farmers.
R. GREGG CHERRY, Governor of North Carolina

AUCTION SALE of Farm Land

We will offer a portion of the J. H. Allison home place, in the heart of Jonathan Township, for sale at public auction.

February 26, 1945 11:00 A. M.

The land has been subdivided into 4 to 6 acre tracts and one can buy as many of these small farms as he likes. This is some of the best farming land in Haywood county and the sale will be held on the date above mentioned rain or shine.

Second Sale

Immediately after above sale we will sell one of the most beautiful homes on Jonathan Creek—the stone residence of Frank Howell, with modern conveniences; between 6 and 7 acres, all level land; 8 miles from Waynesville. Also, four farms fronting the highway, from 1 to 1½ acres.
