Kidneys Must Work Well-
 For You To Feel Well

24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.

LET PVT. JOE JENKS TELL YOU WHERE YOUR Red Cross Money GOES

When pop got sick the Red Cross was asked to verify. And, thanks to their report, I got home!

The second day out. We sure felt lucky when we got those Red Cross dirty linens.

The wife's doing fine after her operation. N. Y. Red Cross Field Director brought the good news.

A home overseas. Just stepping inside a Red Cross club does a guy good. Home seems nearer!

Thanks for your blood folks. We'll want you, our medical corps, and the Red Cross make!

Back to civilian life. The wise veteran goes to the Red Cross! There they know the answers and are eager to help an ex-service man with his problems.

GIVE NOW - GIVE MORE

If you've got a man in service—if you know a man in service—give for his sake. Give so that the Red Cross can give to him!

Your money may help to get a message home to you. It may pay the cost of collecting blood plasma for him! It may pay the cost of delivering a Red Cross package to an American prisoner of war. It will help pay for the thousand and one services the Red Cross performs—to keep up the spirits of our fighting men—to help save their lives. The more you give—the more the Red Cross can give! Let your heart be your guide! Don't delay—give today!
