Gov. Cherry Launches N. C. Pulpwood Campaign

Inaugurating an emergency pulpwood production campaign in North Carolina, Governor R. Gregg Cherry urged farmers and pulpwood workers to cut pulpwood for war. With him are Curtis M. Hutchins, right, chief of the WPB Pulpwood Production Branch, who asked for the governor's cooperation, and John W. Goodman, assistant director of the N. C. Extension Service, who acted as chairman of the special meeting of U. S. state and industry representatives in Raleigh. North Carolina's goal is 450,000 cords by June 30.

CHAMBER OF COMMERCE

By S. A. JONES, Secretary

In expounding the ideas and projects planned by the Chamber of Commerce, our Town Officials and others, for the betterment of our town, communities and county; for plans for the future that must be built upon every day; for working towards sanitation and cleanliness; for endeavoring to provide recreational facilities and improving our accommodations; for trying to do all we can for our own people and our summer visitors; and also in making criticisms, we must not overlook the fact that we also have a lot of which to be thankful and proud.

How often do we stop in thought and gaze with reverence and gratitude at these magnificent mountains that surround us, that belong to us, a God-given privilege that we live amidst such beauty. We can feel good over the fact that Waynesville is a fine place in which to live. We want to make it more so, along with our natural beauties, for others to feel that way, by doing what we can in improving our man-made surroundings and creating interests.

We have a lot of deep-feeling, unselfish and generous people here, which is portrayed in the fact that Waynesville and Haywood County have gone over the top in every drive and appeal made for the good and benefit of others also. We went over our quota in our six War Bond Drives, the War Fund, Red Cross, Pello, Boy Scout and church drives.

Haywood County bonds sell on a one and a half percent basis. Our County has one of the lowest bonded indebtedness in the State—per capita. We own our watershed of 11,000 acres, also our own water and light distributing systems. Our town tax rate is \$1.30 per hundred, both based on a forty percent valuation.

Haywood County now has in this World War II, and had in World War I and the Civil War, more volunteers than any other county in the United States, per capita, and more in the Spanish-American War than any other county in North Carolina, per capita.

Our city manager, mayor and officials are to be commended for their interest and efforts for Waynesville and the County. They have given us some badly needed improved streets recently and plan to improve others. Before summer they hope to gravel the new cemetery road and perhaps improve and repair the old one. We now have ten containers on our streets to make it easy for all to help keep our town clean and free from rubbish and debris. The names of the streets are to be painted on the curbs, which will eliminate much confusion in directions.

We have now a wonderful Test Farm, which will be a big help in the future of our agricultural and farming enterprises and will assist and benefit all our farmers.
