**Sgt. R. W. Gilliland  
Serving In China**

Sergeant Robert W. Gilliland, son of Mr. and Mrs. J. T. Gilliland, of Waynesville, has been serving as a truck driver at a Y-Force base supply depot in southwestern China. Sgt. Gilliland was employed as a painter at the time he entered the service.

He was first stationed at Fort Jackson, then Camp Blanding, Fla., and Camp Forrest, Tenn., before being sent overseas. About four months after arriving in India, the sergeant was flown across the Himalayan "Hump" to join Y-Force on February, 1944.

which Sgt. Gilliland was assigned, flowed much of the vital material for the Salween fighting force. Its distribution over the rugged terrain necessitated the use of airplanes, trucks, pack animals and even coolies.

For his service with Y-Force, the American military mission which trained, equipped and supplied the Chinese Expeditionary Force for its Salween campaign, he is entitled to wear a bronze star on his Asiatic campaign ribbon.

Sgt. Gilliland has a brother-in-law, Louis Mills in the coast artillery at Venice, Calif., and a half brother, Joe England, who is serving in the Navy.

**CIVILIANS AT WAR**

The Government needs and asks us citizens in this 172nd week of the war to:

1. Retread, recap and repair every worn and unable tire to avoid a serious breakdown of automobile transportation.
2. Join your neighbors now in locating vacant lots for community gardens. Beginning March 26, applications for extra lots for vacant necessary to cultivate Victory gardens will be accepted by your ration board.

No new stamps will be validated until May 1	
<b>SHOES</b> - Airplane stamp - No. 1, 2, 3 in Book Three continue valid indefinitely	

**HOUSEWIVES MUST GET CANNING SUGAR ALLOTMENT FROM RATION BOARDS**

The Office of Price Administration says there will be enough sugar to preserve as much fruit as was actually "put up" in our homes last year. The same amount of sugar has been set aside this year for home canning as was set aside last year. She will be allowed up to a maximum of 20 pounds per person or 100 pounds to a single family, even though the family may contain more than eight persons.

**BUTTER SET ASIDE INCREASED FOR APRIL AND MAY**

The War Food Administration has fixed the butter set-aside quota for April at 30 per cent of production and for May at 35 per cent of production. Economically during February and March, the set-aside percentages were 20 and 25 per cent respectively.

**NO RESTRICTION ON ROTENONE CONTENT OF 1945 INSECTICIDES**

Rotenone supplies for the current crop year (Oct. 1, 1944 through September 1945) will be approximately the same as for the previous year, WPA says. Shipping facilities for importing the unprocessed rotenone from South America still constitute a problem.

**INVEST FARM PROFITS IN WAR BONDS**  
By Frank L. Everett  
President, North Dakota Agricultural College

The wartime farm program is for more extensive than growing and harvesting crops. It involves a way of life and an expansion program that will meet the needs of a post-victory world. Those of us who are close to the soil will long remember the magnificent contribution agriculture has made to the winning of the war in spite of limitations of manpower, privations of equipment and overtaxed transportation facilities. American farmers have done the most gigantic task in the face of the most terrific odds in the whole history of agriculture.

Today the farmer finds himself in possession of money and financial backing, the like of which he has not experienced before. There is certainly a tendency to spend these richly earned gains to buy equipment and to do the jobs on farm properties that have been neglected during the last ten years. But he is face to face with the problem of shortages, rationing and poor materials.

This is the time when agriculture should plan for the future. No adequate planning can be made which does not include a maximum investment in War Bonds. These securities will furnish the necessary financial underpinning to purchase adequate equipment and facilities to make farming a genuine way of life in the days which are to come. Saving is the only way to keep debts down, to eliminate inflation, and to be prepared for the needs of a new agriculture when this war shall have been won.

There is no better advice to give and no better words to heed than these: Invest every cent of your surplus money in War Bonds, and keep them against the day of their maturity.

**REDUCED SUPPLY OF FATS AND OILS FOR U. S. IN 1945**

The total supply of fats and oils in the United States will be substantially reduced in 1945, according to the Bureau of Agricultural Economics. Demand for fats and oils is expected to continue strong in 1945. Military demands at present are heavy, both for the expanded military program and for relief distribution in areas under military jurisdiction. Requests for lend-lease and other exports, including exports to liberated countries, continue large. With national income now at the highest level in the nation's history, civilians would consume larger quantities than will be available for civilian use. Prices of most fats and oils probably will remain at ceiling levels through the summer at least. The increasing stringency in supplies of fats and oils is reflected in recent government regulations to limit war procurement. According to preliminary estimates, domestic disappearance of fat and oil products in 1944 was over 10.3 billion pounds on basis of fat content, about 400 million pounds more than in 1943. The major factor in this increase was expanded production of soap for the military, with some increase for civilians. Civilian consumption of food fats was reduced about one pound per capita in 1944 from the 1943 level. If exports, including military shipments for relief, continue large in 1945, domestic disappearance of all fats and oils probably will be reduced five to 10 per cent because of the smaller total supply of fats available, the Bureau of Agricultural Economics said.

**Hoisting Old Glory Over Iwo**

This history-making photo, radioed from Guam shows U. S. Marines of the 28th Regiment, 5th Division hoisting the Stars and Stripes on the rocky summit of Mt. Suribachi, Iwo Jima. While the marines were planting Old Glory out in the Pacific, the Yanks were crossing the Rhine and the Russians were making a powerful drive toward Berlin. The American First Army were driving through heavy German fire in the North of the Remagen Bridge. General Patton and his Third Army were forcing close death traps upon pocketed Nazis on the bank of the Mosel.

**Meeting Of  
Board of Equalization  
And Review**

**The Haywood County Board  
Of Commissioners**

WILL SIT AS A

**Board of Equalization**

AND REVIEW BEGINNING

**Monday, March 19, 1945**

The Haywood County Board of Commissioners will sit as a Board of Equalization and Review beginning Monday, March 19th, at the commissioner's office in the Court House in the town of Waynesville, for the purpose of examining and reviewing the tax list of each township for the current year and shall hear any and all taxpayers who own or control taxable property assessed for taxation in the county, in respect to the valuation of all property in the county and correct any errors appearing on the abstracts, and for the transaction of any other business which may come before the board in compliance with the Machinery Act of 1937. This is the only time in which the commissioners have the authority to change valuation of real estate.

Complaints from the various townships will be heard as follows:

Thursday, March 22—Waynesville Township.

Friday, March 23—Beaverdam and Clyde Townships.
