Capt. Frank Kennedy Serving With 5th Army

Capt. Frank R. Kennedy, Jr., son of Mr. and Mrs. Frank Kennedy, of Jonathan Creek, is a member of the 310th Engineer Combat Battalion, which recently built a cable tramway to reestablish contact with an inundated medical unit near the Po Valley in Italy. Floods had isolated the medical outfit and only the improvised supply route kept the stranded unit in operation and provided for evacuation of wounded.

Keeping roads to the infantry is the 310th primary mission, but it fought along the Arno River as infantry, cleared mines from roads subjected to German artillery, motor and tank fire, chipped a seven-day mile road from rock to enable doughboys to outflank Terracina, built permanent bridges and spanned a 250-foot gorge, 50 feet deep with a Bailey bridge.

The engineers cut a path through the Gothic Line at Futa Pass and on to Firezuola for their parent organization, the 85th "Custer" Division of the Fifth Army.

They participated in the rapid advance from Rome to Arno River, building two permanent bridges on Highway 1 between Rome and Leghorn and assembling three Bailey bridges on the Leghorn-Pisa Road. Manning the Arno defense line as infantry, men of the 310th carried out this assignment so well that they hadn't suffered one casualty at the end of five days.

How women and girls may get wanted relief from functional periodic pain Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help: 1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come. 2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes. Try Cardui. If it helps, you'll be glad you did.
