PEEL YOUR PULPWOOD NOW while you can

Plan now to cut and peel as much pulpwood as possible during the season when the sap is up and trees peel easily.

Get Top Price

Peeled pulpwood prices are substantially above those paid for rough wood—the highest price allowed under wartime ceilings fixed by the Office of Price Administration.

Easier to Handle

There are many other advantages to peeling. The cut and peeled log dries out quickly and loses up to half its weight. The smooth, lighter pulpwood sticks are easier to load and handle; you can haul more pulpwood per trip; save time, labor, gasoline and tires.

Keep Up the Quality

Be sure your pulpwood is sound and free of rot. Otherwise your work may be wasted. Rigid military requirements demand that pulpwood products for the armed services be made of good wood.
