# NOW Is The Time For Farmers

# FUTURE To Prepare For A **Prosperous**

We don't want to appear that we know all the farmers' problems and the correct answers, but being farmers, we base our optimistic outlook on many, many years of experience, both as producer and seller.

Right NOW is the time for Haywood farmers to take advantage of the opportunities that are available.

Right NOW is the time to make plans for cashing in on crops that we KNOW will sell at good prices this season. Last year alone, we sold over a million pounds of beans and tons of other Haywood produce. This meant thousands upon thousands of dollars in cash for the producers. If you are interested in growing a profitable cash crop, see us today.
