Robert E. Trembly
U. S. Navy On Okinawa

Robert E. Trembly, fireman first class, son of Frank E. Trembly, of Hazelwood, is now aboard a U. S. battleship off Okinawa. The veteran battleship on which he is serving poured out 1,500-pound shells onto Okinawa for six days to clear the way for troops taking part in the greatest amphibious landing of the Pacific war according to information sent from the fleet home distributing center.

His ship, which saw service in World War I and has blasted the Japs through five previous campaigns of this war, underwent numerous air attacks during the last few days before the landings. Two torpedoes launched against her never reached their mark.

Before the dawn of "Love Day," she was brought into position to give the beaches a final working over. The men were up at 2:30 a. m. and at their battle stations soon after. Anxiously awaiting reports of the Marines' progress over the ship's loud speaker, he and the crew sent up a cheer at the news that strategic Yontan air strip had been taken. The ship's bombardment had paid off.

Thrive Indoors
Despite their hardy nature, cacti and other succulents require care if they are to thrive indoors. To grow luxuriantly, they need a combination of half sand and half leaf mold, or sand and rich topsoil. During the winter, cacti need little water. Keep them in a southern exposure. In spring they should be watered and given a plant food. When planting cacti, allow it to remain somewhat dry until new roots develop. If the soil is wet, the roots will rot. Spindly growth usually results from excess water and improper light.

From where I sit... by Joe Marsh
This Man Bain and His Six Years Work
"I see by the paper that North Carolina's beer industry is observing the sixth anniversary of its Self-Regulation program." Bill Webster remarked the other day. "The way those fellows have kept their business on a high plane is sensible and something to be proud of."
"True words, Bill," chimed in Officer Stebbins. "Colonel Bain, their state director, has certainly shown the beer dealers how to cooperate for their own good as well as the public's. And believe me, they are right with him. I know. The public's with him, too."
That's just what lots of folks are saying. North Carolinians realize that the \$3,000,000 of revenue the beer industry pays to the state every year is a big help. We also appreciate the way the beer industry does business. The beer industry is a good citizen.
