

To Our Friends and Next Door Neighbors

WE have long watched the Dayton Rubber Company at work - and working hard - to help America's War Effort. These Haywood folks and able executives deserve this high honor - the Army-Navy "E".

This highest production award from our government

is hard to obtain. The close cooperation between all members of your organization and your able leadership - is now rewarded.

May we, your next door neighbors, offer our sincere congratulations for a marvelous job!
