De Luxe CHAMPION TIRES

The only synthetic rubber tires that are safety-proved on the speedway for your protection on the highway

On May 30, each year before the war, more than 150,000 people thronged the Indianapolis Speedway to witness the supreme test of tire mileage and safety, the annual 500-mile race.

Recently, not a single spectator was in the stands as Wilbur Shaw averaged 100.34 miles per hour for 500 miles in a race car equipped with STOCK Firestone DeLuxe Champion Tires. The same as you can buy at any Firestone store.

Imagine the punishment those tires took as they pounded over the rough brick and grinding asphalt! Yet not a skid or blowout occurred. Could you ask for greater proof of tire safety? When you buy new tires, remember Firestone DeLuxe Champions are the only synthetic rubber tires made that are safety-proved on the speedway for your protection on the highway.

WARNING: The tire situation is still critical. You should continue to observe the national 35-mile-an-hour speed limit and all other fundamental precautions for conserving the tires that are now on your car.
