New Employees Must Show Social Security Cards

With many returning servicemen entering the labor market for the first time, and with students getting jobs in the coming holidays, D. W. Lambert, manager of the Asheville office of the Social Security Board, advises all workers to show their social security account card to every employer for whom they work.

This is essential to protect the worker's wage record, which is maintained under his name and number for his future monthly insurance benefits. For example, there are approximately 375,000 accounts under the name of Smith. It is important that no two Smiths have the same number.

Employers are required to report each worker's wages, under both his name and number to the Government every three months. Then these wages are credited by the Social Security Board on each worker's individual ledger sheet, under both his name and number.

for GI JOE'S FAVORITE DISH

THE EQUIVALENT OF NEARLY 30,000 MILES OF QUART BOTTLES OF MILK HAS BEEN ALLOCATED BY THE U. S. GOVERNMENT IN 1945 TO MAKE ICE CREAM FOR UNCLE SAM'S FIGHTERS ABROAD.

Every day 240,000 gallons of milk from America's dairy farms go into the preparation of the favorite dairy food for the GI Joe on foreign soil. That represents the total production from about 135,000 cows.

If all of the milk used each year making ice cream for America's fighters abroad were put in quart bottles it would make a row of bottles nearly 30,000 miles long. This, states the National Dairy Council, is a part of the contribution of America's dairy industry to the health, stamina and morale of her fighters.
