FRANCES GILBERT FRAZIER

... that has lived in a ... does not have, at times, ... when they come ... the friendly ... only small ... So ...

It is the story of Devereaux Bolivar of Virginia. Nollie Farleigh plays an important role in this drama that unfolds with the reading of each page. It is a splendid picture of the excitement of the hunt, the spirit of magnificent horses and baying hounds and the over-all sense of mystery that surrounds Hugo's past.

This book follows no hide-bound tradition of story telling. It is wrapped in its own individual atmosphere of romance and beauty.

It is fortunate that each man plays a brief part, for the world moves and the minds of old men stay put.

Sgt. William Haney To Return From Italy

Sgt. William Howard Haney, rifleman, son of Mrs. W. A. Haney, of Waynesville, is a member of the retiring 85th "Custer" Division with the Fifth Army in Italy and is slated to sail from Italy to the United States in the near future and will undergo a final screening to determine whether he will return to civilian life. Unless the army classifies him as essential and can find no one to replace him, he will be honorably discharged soon after his arrival in the States, according to information received from headquarters in Italy.

Sgt. Haney is scheduled to transfer to the personnel center nearest his home within 48 hours of the time of his arrival in the States. Until he is transferred he will be at a post or in a staging area, either of which is closed to the public.

The 85th, a selective service outfit that fought in the Italian campaign under Fifth Army, has been restaffed and is now composed entirely of men who have adjusted service rating scores of 85 or more and are eligible for release from the army contingent only on the final screening. They served in the Italian campaign as members of the 91st "Powder River" Division, the 10th Mountain Infantry Division or some other Fifth Army unit.

Pvt. Edgar Smith With Group Receiving Distinguished Citations

Private Edgar Smith, of Waynesville, who is attached to the 823rd Tank Destroyer Battalion of the 10th Division, is now in Germany. His group has been awarded the Distinguished Unit Citation for their heroic stand against crack Nazi Panzer divisions at Mortain, France, during the week of August 6-12, 1944.

Four Panzer divisions struck at the 30th Division defenses in the morning of August 7, in a try split the First and Third American armies. The 823rd, along with the other elements of the 30th Division, held the Nazis at bay, and through their gallant efforts thwarted the Nazi plans to drive through to the sea.

For six days the superior force continued extremely heavy pressure, in many instances completely isolating groups of the American forces. Though subject to fierce attacks by day and night, and though many casualties were suffered, this brave group of men effectively blocked the enemy's advance, inflicting crushing casualties upon his personnel and destroying much of the equipment, according to the citation.

... has been a war job... GOD has crowned our arms with victory and a stirring chapter in the history of our country comes to a close—a chapter in which at all times you have met war's all-out demands for telephone service with speed and skill and devotion. The determined manner in which telephone men accepted and discharged their high responsibilities—the 3,705 who served as members of the armed forces and those of you who stayed at your post—deserves the highest praise. You did your job well and you made other important contributions through your splendid record of War Bond purchases, your blood donations and other essential homefront activities. With an overwhelming sense of pride in the sort of folks you are I say, my sincere thanks to you all. With thankfulness in our hearts in the triumph of our Nation and its Allies, we look forward to the return of the men and women who left us to enter the Armed Forces. We shall bear forever in our hearts the memory of those who made the Supreme sacrifice.
