### Women's Clothes To Be Plentiful By November

WASHINGTON. — Clothes for women and children will be piled high in stores by November. So will things like sheets and towels. Men's clothes will be less plentiful.

That is the forecast by industry leaders and government officials. It was the brightest authoritative picture yet on the clothing outlook. The garment prospect has changed radically since the Japanese surrender.

The main factor in the change was the unexpected speed with which the army wiped out most of its plans for buying clothing materials.

One official even said the nation can look forward to a "Christmas shopper's paradise" in women's and children's clothing.

Most items of men's clothing will be produced in good quality.

Shirts and shorts will be produced at a rate of 90 to 95 per cent of their 1939 volume, manufacturers predict.

But industry people expect that heavy sales to millions of discharged veterans will keep retail stocks at low level until after the first of the year.

Wide selections of new-earlier sheets, towels and similar household textile items should be available for Christmas gifts, it was stated.

"This raised the possibility that year-end 'white sales' might be revived this winter.

### Red Cross Gives Aid To Texas Storm Victims

An enormous task of relief and rehabilitation by the Red Cross occupied a 300-mile stretch of the central Texas coast yesterday as one of the most destructive hurricanes in gulf coast history blew itself out in east Texas.

Early estimates of terrific damage, transmitted by patched communication facilities placed crop and property damage in the millions of dollars. From some of the hardest hit sections, still isolated from the outside world, there had been no word last night.

Battered sea-level communities reported a black picture of wrecked towns, hundreds homeless, crops destroyed, three persons dead at least 12 injured.

The giant hurricane moving slowly, pushed up surging monstrous tides so dreaded in the flat coastal country, and thousands of acres were inundated.
