OF THE FAMOUS ALLIED BRAND

NOW 4 POINTS FOR USED FATS

Help Increase Supplies of Soap and Other Peacetime Products By Saving More Used Fats

Industrial fats far short of last year! We are almost down to the bone of the barrel. The nation's industrial fat supply is less than it was in 1944. We need fully as much as last year to help make the soaps and other civilian products you want and need so badly. So...

You want more soap and soap flakes... you're dreaming of nylons, sheets, cotton and want them to hurry back to the store counter... you can help by saving used kitchen fats as you never saved before! Save every drop, every day!

These fats are vitally necessary to help speed greater supplies of soaps and other things - like new cars, electric washers, refrigerators and tires. Industry must have these fats... to help get to you more quickly the peacetime products you want.

skin and scrape just as you did so before V-J Day. To prove how important it is, your government has increased the point bonus. So please help! Save on saving used fats! If you can't find a store that accepts used fats, call Home Administration or County Agent.
