Waynesville Girl Has Been Student In Six Schools

Billie Carol McElroy, sixteen-year-old daughter of Mr. and Mrs. E. A. McElroy, native of Lenoir, who came to live in Haywood county with her parents at the age of 18 months, and remained here until she finished the first grade at the Central Elementary, has come back home to graduate at the Township high school.

She should be an authority on the schools of the Southern states—as proof—read on—Leaving here after completing the first grade she went with her parents to Crossett, Ark., where she attended the second and third grades.

She found herself in Brunswick, Ga., when she was ready to enter the fourth grade. By the time the school year had rolled around again she was in the fifth grade in Lufkin, Texas.

Her parents leaving Texas the next year, she became a sixth grade student in the city schools of Mobile, Ala.

Next year in Pensacola, Fla., it looked as if she might complete high school—for here she was a student in the eighth, ninth, and tenth grades—and even started the eleventh grade.

But before the year was out her father's business took him to Miami, where she completed the eleventh grade.

Now Billie Carol is ready to graduate—and she has come back to the starting point of her education in school.

"I am mighty glad to be back home to graduate from the Waynesville Township high school," said the small blonde student who is happy to be in the mountains again.

THEY'RE NOT "ROLLING DOWN TO RIO"—these staunch mariners are literally crossing the foam in a beer-keg. Starting from Sydney, Australia, Mark Charlton, a Londoner, and Peter Olsen, 65, an old seafaring Norwegian, rigged up the craft shown above for a voyage to England. They think it will take 80 days. They have two vases, a rudder, a sail, a motorbike for ballast—and a lot of nerve. (International)
