

Eisenhower Boosted For G.O.P. Nominée By Senator Capper

WASHINGTON—Senator Capper, Republican of Kansas, pro-Gen. Dwight D. Eisenhower as the Republican nominee for President in 1948.

“I have come to the conclusion that General Eisenhower of Kansas is the best man for the job of President of the United States,” Capper said in a broadcast prepared for broadcast on his Topeka radio station.

“I am a statesman, a diplomat, a soldier as well as a George Washington type of a man. We have ever produced a national history.”

Senator said it seemed to

him the next decade would be largely one in which an understanding of the use of military force as an instrument in world politics would be one of the essentials of national leadership.

DOOLITTLE PROPOSED FOR VICE PRESIDENT

CHICAGO—A proposal by Senator Arthur Capper, Republican of Kansas, that the Republican nominee Gen. Dwight Eisenhower for President brought a counter suggestion by a Missouri Republican, G.O.P. pick Lt. Gen. James Doolittle as its standard bearer.

Barak T. Mattingly, Missouri national committeeman, told a reporter the Republicans in his state are strong for Doolittle. The man who led the Tokyo raid claims St. Louis as his home town. Mattingly said Pennsylvania Republicans recently have talked to Gen. H. H. Arnold, Air Corps chief, as a possible candidate.

Mention of military leaders as possible candidates was general in a corridor conversation at the party's national committee meeting here which ended Saturday, but several veteran Republicans thought Capper possibly was a little hasty in attempting to put Eisenhower, the new Army chief of staff, into the political field.

Tests will be made this year with the Logan Snap Bean, a new variety closely resembling the Tendergreen, in several of the chief bean producing areas of North Carolina.

BBLES SEZ—

Know what character is? Cleaning the corners nobody sees. And say, cleaning's extra easy, with soap so sudsy. It can help by turning in your PATS to help make it better. Wontcha?

WELDING WAR CRIMES 'CHAIN', AT NUREMBERG

IN ONE OF THE MOST DRAMATIC and comprehensive photographs to come from the Nuremberg courtroom, a large court on the wall is shown establishing the "chain of command" while Maj. Frank B. Wallis (indicated by arrow) presents details to the court—here shown in its entirety. Note American guard with "billy" handy, keeping an eye on the key defendants, while Hermann Goering looks on a hand and Rudolf Hess goes into one of the "dazes" that preceded his admission of feigning amnesia. Signal Corps photo. (International)

Unemployment Problem Kept At Low Level

NEW YORK—President Truman, in a letter to the 11th annual meeting of the United States Conference of Mayors, says the unemployment situation has not been as serious or drastic as was originally anticipated.

The letter, to be read at the conference, was addressed to Mayor F. H. La Guardia, head of the mayor's group, and was released by Paul V. Betters, executive director of the conference.

"Even with demobilization of our armed forces speeded up," the President said, "the current volume of unemployment has been far from unsatisfactory. In any event, we must be ready with plans for meeting unemployment should it reach unduly high levels."

The President declared that "in the reconversion period the great cities of the nation and the Federal government must join hands in the formulation and development of many programs designed to provide a better American way of life."

"One of the major responsibilities which must be met," he said, "is that of housing housing for veterans, public housing assistance to home owners and elimination of slums and blighted areas."

Mr. Truman said he hoped there would be no controversy over the five-point national health program he recently submitted to Congress.

Announce How Cities To Receive Airports

WASHINGTON—Procedure has been established under which municipalities or other local government subdivisions may be permitted to operate surplus airports and airport facilities, at no cost, pending final disposition of the airfields, the Surplus Property Administration announced.

Owing agencies of the government have been authorized by the Surplus Property Administration to issue interim permits to states, political subdivisions, and municipalities which expect ultimately to acquire the property.

One of the first communities to benefit by this procedure will be the city of Cheyenne, Wyo. The permit covers two hangars formerly used as a modification center.

No Cash Payment

Issuance of these permits involves no cash payment. They are revocable and will serve only as a temporary expedient to keep the airport in continued operation until final disposition is made.

Acceptable by a community or state of a permit will be under the following conditions:

1. The government reserves the right to use the airport without charge, other than payment for damages caused by government aircraft.
2. The licensee agrees the property will be operated as a public airport on reasonable terms, and without unjust discrimination.
3. Privileges granted under permits shall be without cost to the United States.
4. The licensee agrees to maintain in good and serviceable condition the entire landing area of the airport together with facilities and equipment.
5. The licensee will endeavor to prevent use of the land or facilities within or outside the boundaries of the airport, which would be hazardous to the landing, taking off or maneuvering of aircraft at the airport.

Property of the U. S. damaged or destroyed by the licensee shall be promptly repaired or replaced by the licensee to the satisfaction of the representative of the government having immediate jurisdiction over the property.

The licensee agrees to maintain the premises and indemnify the government against claims and damages which may arise, except claims for injuries or death to persons resulting from the willful or negligent acts or omissions of the government.

On or before the date of expiration of the license or its relinquishment the licensee will vacate the premises, remove its property and restore the premises to a condition existing at the time of issuance of permit reasonable wear and tear excepted.

An inventory of the airport including operational equipment will be made prior to the issuance of the permit to establish the condition of the installation, which would include land, buildings, and equipment.

The action is authorized under Surplus Property Administration regulation 16, governing the disposal of airport properties, to expedite the use of these facilities.

In case where immediate possession is desired rights of way will be issued pending the drafting and execution of the formal permit.

The yield of cotton per acre in North Carolina was 254 pounds in 1930 and 454 pounds in 1944. More cotton on fewer acres at a cheaper cost per pound.

Things might be worse. Suppose it had become the fashion to wear jackets made of hairy masculine hair.

Home Mission Offerings Rise

ATLANTA—Dr. J. B. Lawson, executive secretary—treasurer of the Southern Baptist Home Mission board, reported a substantial increase in home mission offerings.

He said the offerings for the first 11 months of 1945 totaled \$1,303,000 a 25 per cent increase over the same period last year.

In November, they were \$80,000, a 37 per cent increase over November, 1944 receipts.

Asheville Store Fire Causes Heavy Damage

ASHEVILLE—Fire ravaged the three-story Pallock's Shoe store building in the downtown section at the height of the noontime rush hour.

Carl J. Rhinehardt, store manager, said stock—various estimated at between \$75,000 and \$100,000—was a total loss.

It was thought the blaze started on the third floor of the building. Both second and third floors, used for storage purposes, were ablaze when the fire was discovered.

The store was a member of the chain operated by Butler and company of Atlanta.

NOTICE

Jane Goforth, Plaintiff, vs. Ott Goforth, Defendant.

To the Defendant, Ott Goforth: You will take notice that an action has been commenced in the Superior Court of Haywood County entitled as above and that the purpose of the said action is to obtain an absolute divorce on the ground of two years separation.

You will take notice further that you are required to appear at the office of the Clerk of Haywood County Court not later than thirty days from the 9th day of January, 1946 and answer or demur to the complaint within the time prescribed by statute.

You will further take notice that if you fail to answer or demur to the complaint prescribed by the statute the plaintiff will apply to the Court for the relief demanded in the complaint.

Given under my hand and seal of the Court, this 12th day of December, 1945.

C. H. LEATHERWOOD, Clerk of the Superior Court, of Haywood County, North Carolina 1489—Dec. 13-20-27 Jan. 3
