Rayon Prices
Prices for rayon staple fiber have declined from 60 cents a pound in 1928 to 25 cents a pound at present on a net weight basis, say reports. There is practically no waste in using rayon.

Frosted Evaporator
Sharp objects should not be used to loosen the frost and ice from the evaporator in trying to defrost the refrigerator quickly, as the coils may be punctured. Let the ice melt and fall.

Washing Reminder
A washing reminder. Fill the washer this way to avoid clogging its drain: Fill the tub to about an inch below water line; turn on motor to start agitator going; then put in soap.

Tasty Fare
Sweet potatoes are good when baked, cut lengthwise, scooped out, the pulp mashed and seasoned with salt and fat. Fill the shells and top with meringue and brown.
