

Thanks A Million For The Grand Opening---

This is a general view of the cosmetic and drug side of our modern store. The shelves are stocked with nationally known brands of merchandise.

As we promised, we feature nationally advertised brands of merchandise throughout our store. We will always feature service and courtesy. No matter how busy you find us, you will be assured of smiling courtesy from every member of the firm.

The heavy snow of Thursday did not keep the large throngs from visiting our store for the opening. The response was most gratifying and we appreciate the many compliments paid us on the modern store which we have opened.

This is our soda fountain, which has already proven very popular with our customers. Everything carefully made, and is delicious.

A Walgreen Agency

Dr. J. L. Cobb is shown here filling prescriptions. Everything is new, spic and span, and only the best of ingredients used.

This drug store is designed and will be operated to meet your needs at all times. We have a competent staff to see that you are given the best of service.

This is an other view of the drug department with the owner, Zeb Curtis, in full charge.

"The many nice things said about the store during our first week of business, makes me realize even more than ever the responsibilities placed upon us by the public. We are glad to shoulder this, because we are determined to keep this the most up-to-date drug store it is possible to operate. Again, many thanks for the grand opening, and the business on the days that have followed.

ZEB CURTIS, Owner.
