An Easy Menu to Prepare When Company Is Coming

By BETSY NEWMAN

I'VE been thinking of the brides who are new to the business of keeping house, and who are entertaining the friends of the returned soldier-husband as well as the old pals of both.

A roast is the easiest meat to cook for a guest dinner, as it is just put in the roaster in the oven, and cooked at proper temperature, seasoned appropriately and is ready to serve.

Today's Menu

Fruit or Tomato Cocktail
Roast Beef
Baked Potatoes
Celery, Olives, Raw Carrot Sticks
Currant Jelly
Ice Cream
Cake with Cocoa Whipped Cream Frosting
Coffee

Roast Beef
4 or 5 lb. 1 or more
standing Rib 1 or more
Roast Bay leaf
Salt, pepper

Wipe roast with damp cloth, and put into oven set at between 325 and 350 deg. F. It is best to put it on a rack in the roasting pan. Do not cover and allow about 20 mins. roasting time to the lb. of meat, unless you like it very well done, when you might allow 25 mins. to the pound. After one hour, add one or more small onions (according to whether you intend just to season the meat or to serve the onions

with it). Salt and pepper the meat and add 1 or 2 small bay leaves if you like the flavor; try it anyway, if you have never used bay leaves with a roast of beef before.

Add peeled potatoes, arranging them around the meat, and sprinkling them with salt; continue cooking until potatoes are tender. If there is much fat in the pan, pour off all but about 2 tbsp., add 3 tbsp. flour, blend until smooth, add warm water, and stirring all the time, mix to a smooth gravy.

Taste to be sure it is seasoned enough, strain through a wire strainer into the gravy boat. The potatoes should be brown and toothsome by the time the meat is done if you add them from 45 to 60 mins. before the meat is finished. Use the frozen squash, season well with butter, pepper and salt, put in casserole and bake.

Cocoa Whipped Cream Frosting
1/2 tsp. unflavored gelatin
2 tsp. cold water
1/2 c. confectioners' sugar
1/2 c. cocoa
Dash salt
1 c. heavy cream, chilled
Few drops vanilla

Soften gelatin in cold water for 5 mins.; melt over hot water, cool slightly. Sift sugar, cocoa and salt together. Whip cream until just stiff, add cocoa mixture gradually, then vanilla, and gelatin, and beat until stiff enough to stand in peaks. Spread on cake at once. This makes enough for two layers.

WORMWOOD FROM DER TIERGARTEN

FACED BY BITTER WINTER MONTHS, the men and women of Berlin who arrogantly preached the doctrine of a "master race" now hack away at felled trees in the famous Tiergarten to get a few logs for their fires. The city's fuel supply is reported to be very low. (International)

Three Simple Rules for Profitable

NEWSPAPER ADVERTISING

1. Make your advertising copy easy to read, friendly and informative. People read newspapers for the news. Give them facts and news about your merchandise and services.

2. Advertise regularly. Do what successful salesmen do—call on customers and prospects consistently.

3. Protect your advertising investment by insisting on audited circulation reports that tell you just what circulation you get for your money. Guesswork is wasteful.*

*In order that you may know just what you get for your money when you advertise in this newspaper, we are members of the Audit Bureau of Circulations. This is a national, cooperative association of more than 2000 publishers, advertisers and advertising agencies. Organized in 1914, the purpose of the Bureau is to

establish and maintain definite standards of circulation, audit the circulation records of the publisher members and report this verified information to advertisers.

Annually, one of the Bureau's large staff of trained auditors makes a thorough audit of our circulation. The verified facts and figures thus obtained are issued in an official A.B.C. report.

Our A.B.C. report tells how much circulation we have, where the circulation goes, how it was obtained, how much people pay for it and many other facts that you should know when you buy newspaper advertising. Thus when you advertise in this newspaper your investment is in known and verified values.
