## Rotarians Hear Talk On Merger Of Army and Navy

Rotarians last Friday heard Major G. E. Haver explain details of the proposed congressional bill which would merge the army, navy and air corps under one governing body.

Major Haver pointed out the proposed plan would co-ordinate and expedite many military problems, and as leaders favoring the merger have pointed out, the cost of operation would be reduced.

The speaker had charts to show the set-up should the measure be enacted into law.

Charles Ray, vice president, presided.

terworth hospital was host to four sets of twins, one set boys; one set girls and the others, like tennis, were mixed doubles. All doing fine, thank you.

### OHMIGOSH! ONE WAY TO MAKE NEW YEAR WISH

It's all in the way you look at it, probably, but for our bathing we prefer a warm bathroom. But the Milwaukee Polar Bear club enjoy sliding off a four-foot ice formation and biting into a frozen lake for their annual New Year plunge. They didn't linger long but it did uphold their tradition of starting off the New Year by a dip into Lake Michigan.

### THEY GOT LIT UP FOR THE NEW YEAR

When the lights were flicked on again in St. Nazianz, Wis., after 23 years of retirement, the street pedestrians must have blinked their eyes. Quite a good many of the young folk had never before seen the streets at night. A storm in 1922 disrupted the lighting system and until this year, the cash box was too over-taxed for the necessary repairs. But this year, a group of business men decided to tax the townspeople in order to finance the re-lighting project. Success crowned their efforts, and now the village of 485 do not need a flash

RAVALLI, Mont. — A pack of hunting dogs was having some trouble with an unusually ferocious mountain lion on National Bison Ridge near here. The dogs encircled the animal and maneuvered him onto a railroad track, then cautiously made fast passes at it while a Northern Pacific passenger train delivered the coup de grace.

### "A ROSE BY ANY OTHER NAME" WITHOUT A THORN

Dr. N. E. Hansen, sometimes called the "Burbank of the Plains," is now attempting to surpass all of his other achievements by perfecting a "perfect" rose; i. e. one without thorns but losing none of its fragrance and beauty. It would seem that if any one could do this miracle, it would be Dr. Hansen for he has achieved the impossible in several cases.

He obtained a half-teaspoonful of seed and from that grew 1,000 bushels of seed in 10 years. When he isn't playing around with his thornless rose, he is putting his magic to work to grow a better apple for the dry north country.

### 800 MORE VETERANS ENROLL AT CAROLINA

**CHAPEL HILL**—More than 800 new veterans were enrolled at the University of North Carolina as the winter quarter opened.

This exceeded the number expected by 200, and will bring the total number of ex-servicemen on hand to approximately 1,500.

The huge auditorium of Woolen Gymnasium, where registration was held, thrived with activity during the entire day, and the registration machinery was taxed to the limit.

Total registration for the winter quarter will be between 3,700 and 4,000, it was estimated. Enrollment for credit will not be permitted after January 10. Class work for the quarter began January 4th.

The world carry-over of cotton stands at 26.5 million bales as compared with 22 million bales before the war.

## Improving Child's Behavior in Church

By GARRY CLEVELAND MYERS, Ph.D.

GOOD manners in any place presuppose consideration of the rights and feelings of other persons there. Let us apply this to behavior at church.

That person has best manners at church who contributes most to the atmosphere of worship there. If he goes to church late, or leaves before the very end of the services; if he talks or makes any other unnecessary noise or does anything else to impair the quiet and spirit of the assembly, he acts unmannly.

As with all teaching of good manners, the example of parents at church is of first importance. Therefore, we should be seated, still and quiet, before the services begin. We should stay till the benediction is pronounced. Even if there are certain ceremonies we would prefer not to participate in or observe, we should remain to the very end, unless, of course, it were the wish of the regular parishioners that we leave.

**Child Does Likewise**

If our child is sitting with us, we should expect him to do likewise. You have been in a church service, perhaps, when certain persons arrived late or left while the last hymn was being sung. You saw how much their actions impaired the worship atmosphere.

Promptness at church may be cultivated early in the child through his promptness at Sunday school. The nation over, the way children and their parents struggle into Sunday school week after week is truly shameful. See how the worship period or the class period is disturbed by this inconsiderate practice.

**Social Nuisance**

While the offender is making himself such a social nuisance, he is doing himself great moral harm.
