First Modern Hotel
Boston's \$200,000 treatment house in 1829 became famous as the first modern hotel.

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial and nasal membranes. Creomulsion binds, beechwood essence by special process with other time tested medicines for coughs. It contains no narcotics. No matter how many medicines you have tried, if your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it feels, it will help the cough, permitting you to breathe, or you are to have your cough cured.

Sgt. J. D. Hyatt Discharged From Service During Week

Sergeant J. D. Hyatt, son of Mr. and Mrs. Dewey Hyatt, of Hazelwood, was discharged during the week at Fort Bragg. He entered the service on January 22, 1943, and at the time was a student at Mars Hill College.

After he volunteered he was sent to Wake Forest College for special training and from there sent to Duke University, where he was stationed for a year.

From Duke he was transferred to Stuart Hills, Newburg, N. Y., where he has been stationed since leaving the former post.

Why a Dated Tire?

You, like everyone else, will want to know you are getting the very latest improvements in the new tires you buy. Be tire-wise, buy the latest, therefore the best. Here are 5 important reasons why Dayton is helping you to a wise tire choice with Dated Tires:

There's nothing man could do to change natural rubber.

The make-up of rubber from trees is fixed by nature. Therefore, improvements in compounds of natural rubber came slowly and with great difficulty.

It's possible to make almost any change in synthetic rubber.

Through the wonders of the chemical laboratory, man has learned to make synthetic rubber of whatever kind he chooses. He can control its resiliency, wearability, and every other characteristic.

Synthetic tire compounds are constantly changing for the better.

This scientific development is swift and continuous. Now synthetic tires are vastly superior to the 35-mile wartime tires. Tomorrow's will be even better.

How can you know just how good your new tires are?

Tires look much alike; you cannot see the differences in compound and construction. In today's onrushing advance to ever higher quality, how can you recognize the latest and best?

The answer is—when were they made?

Since a few short months can make so much difference in improved quality, obviously, to make a wise tire choice you need to know when your tires were made. But how can you, or your dealer know?

That's why Dayton tires are dated.

Now, as a new special service, Dayton molds into the side wall two numbers indicating the month and year when your new tire was made—assurance of the latest, and therefore, the best.

To keep up-to-date... Look for the date on...
