

### Day Warns Building Too To Roads

Highway and Public Mission is making an estimate of the expense and estimate highway rights prospective engineers build new structures and the highway system, H. Graham said today.

Graham said that the highway program, the construction of new roads, as well as the improvement of the existing roads, will be started in the near future, he feels.

Graham said that the highway program, the construction of new roads, as well as the improvement of the existing roads, will be started in the near future, he feels.

Graham does not think that the highway program, the construction of new roads, as well as the improvement of the existing roads, will be started in the near future, he feels.

Graham said that the highway program, the construction of new roads, as well as the improvement of the existing roads, will be started in the near future, he feels.

### BABY HIPPO ADDED TO WHO'S ZOO

IN THE CHICAGO ZOO it's hip-hippo-hooray for "Bebe's" baby—who arrived two days later than the doctors had expected, but poses here for her first picture. Mama Hippo beams on the little daughter, who appears to be planting a kiss—or maybe just getting acquainted. (International)

### THE BOOK CORNER

Reading From Left To Right

—With—

FRANCES GILBERT FRAZIER

Have you a friend who has been quite ill but who now is so much better that they would enjoy a hearty laugh? Then make them a present of "OUTSIDE EDEN" by Isabel Scott Rorick. This is the same authoress who gave us that hilarious book, "MR. AND MRS. CUGAT."

If ever any one could manipulate matters so that they would get in the "blamest" tangle imaginable, it is Mrs. Cugat, in person. She stays right smack dab in the middle of a snarl (not fistic, mind you) of tangled events from which she always emerges serene and triumphant albeit a bit, disheveled.

By all means go to the pageant in which George takes a leading part when gently propelled and see if you can finish without being a bit hysterical with laughter. It's really funny. And give a look-see at his new hat and tune in on him when his old flame arrives and broadcasts her emotions . . . and get out the fire extinguisher for aforesaid old flame who burns George up. Read it . . . and give it to some one else to read.

One of the very latest books on the shelves is "YOU AND I," written by Myron Brinig who also wrote "Singermann" and "The Sisters," and others. In this his latest book . . . and his first novel in three years . . . has even surpassed his earlier writings. "YOU AND I," is a panoramic novel that brings characterization to the point of accuracy so appealing that one loses themselves in the story. You travel from America to Europe and you visualize all the places so vividly that it seems possible you have already been there before. You travel, yes, but you do not get confused and lose the thread of this most interesting novel.

Claire and Eric begin life in the American Southwest as brother and sister, although there is actually no blood connection. Then they become separated and their lives go on but in such different spheres, worlds that do not touch each other, yet in the final round-up their paths cross once more and

the severed thread is tied with everlasting secureness.

Clair's life in New York with a grandmother whose delusions of grandeur is in sharp contrast to her life as a rooming house keeper . . . is equally matched by Eric's assorted means of livelihood in Montana and then abroad. Characters, all livable, make their entrances and exits all through the story and play their important roles with fidelity. Altogether it is a most readable book.

With the tragedy of the last war in our hearts, we are trying to acquaint ourselves more and more with the reasons why America has played so high a part in all events, whether in war or peace. If one wants to really get information of the history of the United States, one should read "THE BEARD'S BASIC HISTORY OF THE UNITED STATES." It is written by America's most noted historians—and a vivid new history, telling the story of the birth and development of our country and our people. The authors are Charles A. and Mary R. Beard who also wrote "THE RISE OF AMERICAN CIVILIZATION," "THE REPUBLIC," and other books of reputation.

Spring always affects us just as it does birds . . . to the extent of getting nest-conscious. Everyone gets an urge for a home, or new draperies, or a garden or anything else that pertains to nest-building. THE BOOK CORNER has two new books that will bring gladness to the hearts and eyes and minds of those who feel that there is no time like the spring to "get your house in order." They are: "THE BOOK OF HOUSES" by John P. Dean and Simon Brienens. And the other is "TOMORROW'S HOUSE" by George Nelson and Henry Wright. Either, or both, will bring joy to your artistic soul.

The smallest type farm food dehydrator sells retail for about \$5,000.

### Find DDT Is Not Harmful To Bees

DDT, highly effective supplement to nature's own method of controlling insect pests, is still under intensive study by researchers and the results of tests made to date are encouraging, according to specialists of the State College Extension Service.

One of the early fears—that DDT would destroy too many bees which are useful as honey collectors and particularly valuable as pollinizers of crops such as legumes and fruit—has been virtually eliminated by the discovery that DDT is actually less deadly to bees than the arsenical sprays now commonly used. Beekeepers now are beginning to regard DDT as a promising relief for bee losses by arsenic poisoning.

Usual objections to the new pest control have been predicated upon the contention that it would "upset the balance of nature," a theory that beneficial insects, birds and other predators can sufficiently control insect pests. So, intensive tests of DDT are being made to determine its effect upon fish, birds, beneficial insects and other wild life.

In regard to the widespread use of the chemical, it now appears for the first time as a practical control for some forest insects.

### Red Cross Booster

LITTLE Carol Schroeder of Chicago, Ill., is all set to pin a Red Cross contribution button on you as she invites one and all to join the national Red Cross fund campaign. Goal of the drive, which starts March 1 and ends March 31, is \$100,000,000. (International)

### Rambling Around

(Continued from Page Two)

and white-collar workers feel they are worse off than before the war; while 13 per cent said they were better off; 10 per cent said it has not made any difference, and 5 per cent said they were doubtful. To another question, 87 per cent said they were worse hit than manual workers, 7 per cent said there was no difference, and 6 per cent were doubtful.

That here are what "experts" consider the 12 essential points to consider in employing a teacher—(1) personality, (2) scholarship, (3) adequate training in public relations, (4) experience, (5) health, (6) ethical character, (7) attitude towards professional growth, (8) making proper use of leisure time, (9) dependability, (10) resourcefulness, (11) loyalty, and (12) a love for and sympathetic understanding of children.

# What's around the corner, MISTER?

**YOU'RE** a mighty smart man if you can answer that one!

But you can be almost as smart if you fix things so no matter what happens around that corner, you're all set financially.

Ask anyone you want—doctor, lawyer, merchant, chief—they'll all tell you there's

no better way to save for a rainy day than by the U. S. Payroll Savings Plan.

The Savings Bonds you buy are exactly the same as your War Bonds were—the same fine investment, too.

If you have a youngster like the kid above, the money you lend your country now will help pay for his college when the time comes.

Or give you a real vacation someday. Or let you buy the worth-while things you'll really want in a few years.

Yes, sir—there's no wiser way to plan, no better way to save, than through your Payroll Savings Plan. Remember—four dollars for every three in just ten short years!

Stick to it!
