NOW!

---Is The Time To Become A Member Of The
Chamber of Commerce

"a member is an investment in the community"

The Chamber of Commerce is striving to
make this community a better place to live

The Membership Plan---
All membership is based on a \$15.00 subscription.
The membership committee urges and requests each business firm, hotel and boarding house to take out not only one—but several memberships and in letters to members of previous years—has suggested the number of memberships for such firms to take out.
Instead of having committees canvass the community—Letters are being sent to all previous members of the Chamber of Commerce requesting their membership for the new year—ballots for a new Board of Directors are enclosed for their use in voting—together with a financial report for last year.
New firms and individuals likewise are being canvassed in this manner. Those persons who do not receive this invitation—together with ballots—are invited to obtain them at the Chamber of Commerce office.
Following the election of this new Board of Directors, the Annual Banquet will be held and the new Board and Officers will outline to you their program for the year.

YOU NEED THE
Chamber Of Commerce
AND THE
Organization Needs You--

VOTE
This Ballot Today
